(57) **CLAIM**

The ornamental design for multifunctional furniture, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevation of the present invention in table orientation;  
 FIG. 2 is a rear elevation of the present invention in table orientation;  
 FIG. 3 is a side elevation of the present invention in table orientation, the opposite side being a mirror image thereof;  
 FIG. 4 is a top plan view of the present invention in table orientation;

FIG. 5 is a bottom plan view of the present invention in table orientation;  
 FIG. 6 is a perspective view of the present invention in table orientation;  
 FIG. 7 is a front elevation of the present invention in chair orientation;  
 FIG. 8 is a rear elevation of the present invention in chair orientation;  
 FIG. 9 is a side elevation of the present invention in chair orientation, the opposite side being a mirror image thereof;  
 FIG. 10 is a top plan view of the present invention in chair orientation;  
 FIG. 11 is a bottom plan view of the present invention in chair orientation;  
 FIG. 12 is a perspective view of the present invention in chair orientation;  
 FIG. 13 is a front elevation of the present invention in bed orientation;  
 FIG. 14 is a rear elevation of the present invention in bed orientation;  
 FIG. 15 is a side elevation of the present invention in bed orientation, the opposite side being a mirror image thereof;  
 FIG. 16 is a top plan view of the present invention in bed orientation;  
 FIG. 17 is a bottom plan view of the present invention in bed orientation;  
 FIG. 18 is a perspective view of the present invention in bed orientation;  
 FIG. 19 is a front elevation of the present invention in chaise orientation, with leg bolsters removed;  
 FIG. 20 is a rear elevation of the present invention in chaise orientation, with leg bolsters removed;  
 FIG. 21 is a side elevation of the present invention in chaise orientation, with leg bolsters removed, the opposite side being a mirror image thereof;  
 FIG. 22 is a top plan view of the present invention in chaise orientation, with leg bolsters removed;  
 FIG. 23 is a bottom plan view of the present invention in chaise orientation, with leg bolsters removed; and,  
 FIG. 24 is a perspective view of the present invention in chaise orientation, with leg bolsters removed and shown.
