(57) **CLAIM**

The ornamental design for a digital camera, as shown and described.

DESCRIPTION

FIG. 1 is a front, right side perspective view of our new design for a digital camera with an LCD display rotated inward and closed against the camera body;

FIG. 2 is a rear, right side perspective view thereof;

FIG. 3 is a front, top, right side perspective view our new design for a digital camera with the LCD display raised away from the camera body and rotated so the LCD screen faces toward the rear of the camera;

FIG. 4 is a front, right side perspective view of our new design for a digital camera with the LCD display rotated outward and closed against the camera body;

FIG. 5 is a front elevation view of the camera in the configuration of FIG. 1;

FIG. 6 is a top plan view of the camera in the configuration of FIG. 1;

FIG. 7 is a rear elevation view of the camera in the configuration of FIG. 1;

FIG. 8 is a bottom plan view of the camera in the configuration of FIG. 1;

FIG. 9 is a left side elevation view of our new design for a digital camera; and,

FIG. 10 is a right side elevation view of the camera in the configuration of FIG. 1.
