(57) **CLAIM**

The ornamental design for a laminate transition molding, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of the laminate transition molding;

FIG. 2 is a bottom perspective view of the laminate transition molding;

FIG. 3 is a bottom view of the laminate transition molding; and,

FIG. 4 is an end view of the laminate transition molding with the opposite end view being a mirror image thereof.

It should be understood that the laminate transition molding of the present drawings is an indeterminate length, which may be cut to a length as needed; the length shown in FIGS. 1–4 is for convenience of illustration; the dotted lines do not form part of the novel features of the design.
