(57) **CLAIM**

The ornamental design of a diamond-shaped central section
defined by grooves on a face of a golf club head, as shown
and described.

DESCRIPTION

FIG. 1 is a front view of a diamond-shaped central section
defined by grooves on a face of a golf club head according
to a preferred embodiment of our new design; and,

FIG. 2 is a front view of an alternate version of the
diamond-shaped central section defined by grooves on a face
of a golf club head according to the preferred embodiment
of our new design.

The broken lines in an area surrounding grooves in accor-
dance with our new design are illustrative of an exemplary
golf club head that shows an environment in which a
diamond-shaped central section defined by grooves on a face
of a golf club head is associated. The exemplary golf club
head does not form a part of the claimed design.

The broken lines in the diamond-shaped central section
defined by grooves on a face of a golf club head according
to the preferred embodiment, as shown in FIG. 2, are
illustrative of exemplary additional grooves that show envi-
ronments in which the diamond-shaped central section
defined by grooves on a face of a golf club head are
associated. The exemplary additional grooves do not form a
part of the claimed design.
