(57) **CLAIM**

The ornamental design for a stand-up pouch, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an embodiment of a stand-up pouch of our design, in which the pouch is closed in a pinch form at its opening portion by sealing and the lower portion of a front face and a rear face of the pouch is formed like a skirt, projecting from a bottom face with gussets at a substantial right angle to the bottom face from the upper end of the rear surface of the skirt-like portion to thereby conceal the gusseted bottom face;

FIG. 2 is a front elevational view, the rear elevational view being a mirror image and symmetrical to the front elevational view thereof;

FIG. 3 is a top plan view thereof;

FIG. 4 is a bottom plan view thereof illustrating that the bottom face is provided with gussets by folding both sides thereof and sealed;

FIG. 5 is a right side elevational view thereof, the left side elevational view thereof being a mirror image and symmetrical to the right side elevational view thereof; and,

FIG. 6 is a sectional view taken along line 6—6 of FIG. 2.
