(57) **CLAIM**

The ornamental design for a door handle for an appliance, as shown and described.

DESCRIPTION

FIG. 1 is a upper left perspective view of a door handle for an appliance, showing my new design;

FIG. 2 is a front elevational view of the door handle of FIG. 1 illustrating black, low gloss end portions arranged on either side of a bright, central knurled portion;

FIG. 3 is a rear elevational view of the door handle of FIG. 1;

FIG. 4 is a right side elevational view of the door handle of FIG. 1, with the left side elevational view being a mirror image thereof; and,

FIG. 5 is a top view of the door handle of FIG. 1, with the bottom view being a mirror image thereof.

The broken lines in FIG. 1 showing one exemplary appliance employing the door handle of the invention and the broken lines depicting terminal door handle mounting brackets in each of FIGS. 1-5 are for illustrative purposes only and form no part of the claimed invention. Instead, it should be understood that the door handle of the invention can be utilized with a wide range of appliances, including, for example, ranges, ice makers, gas grills, wall ovens, and washing machines.
