(57) **CLAIM**

The ornamental design for: set of triangular prismatic blocks having indicia on two faces, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of one block in the set having an upper case A and a lower case a indicia on a front face and an upper case Z and a lower case z indicia on a rear face, showing my new design, it being understood that all blocks contained in a set, of which there are 14, are identical in shape and differ only to the extent of the specified combinations of indicia residing on their front and rear faces.

FIG. 2 is a left side of any block, a right side being identical; FIG. 3 is a bottom view of any block;

FIG. 4 is a front view taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being identical;

FIG. 5 is a front view of a block taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being depicted by FIG. 30;

FIG. 6 is a front view of a block taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being depicted by FIG. 29;

FIG. 7 is a front view of a block taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being depicted by FIG. 28;

FIG. 8 is a front view of a block taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being depicted by FIG. 27;

FIG. 9 is a front view of a block taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being depicted by FIG. 26;

FIG. 10 is a front view of a block taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being depicted by FIG. 25;

FIG. 11 is a front view of a block taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being depicted by FIG. 24;

FIG. 12 is a front view of a block taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being depicted by FIG. 23;

FIG. 13 is a front view of a block taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being depicted by FIG. 22;

FIG. 14 is a front view of a block taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being depicted by FIG. 21;

FIG. 15 is a front view of a block taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being depicted by FIG. 20;

FIG. 16 is a front view of a block taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being depicted by FIG. 19;

FIG. 17 is a front view of a block taken in the direction of arrow F in FIG. 2 the opposite side view taken in the direction of arrow R being depicted by FIG. 18;

FIG. 18 is a rear view of a block taken in the direction of arrow R in FIG. 2 the opposite side view taken in the direction of arrow F being depicted by FIG. 17;

FIG. 19 is a rear view of a block taken in the direction of arrow R in FIG. 2 the opposite side view taken in the direction of arrow F being depicted by FIG. 16;

FIG. 20 is a rear view of a block taken in the direction of arrow R in FIG. 2 the opposite side view taken in the direction of arrow F being depicted by FIG. 15;

FIG. 21 is a rear view of a block taken in the direction of arrow R in FIG. 2 the opposite side view taken in the direction of arrow F being depicted by FIG. 14;

FIG. 22 is a rear view of a block taken in the direction of arrow R in FIG. 2 the opposite side view taken in the direction of arrow F being depicted by FIG. 13;

FIG. 23 is a rear view of a block taken in the direction of arrow R in FIG. 2 the opposite side view taken in the direction of arrow F being depicted by FIG. 12;

FIG. 24 is a rear view of a block taken in the direction of arrow R in FIG. 2 the opposite side view taken in the direction of arrow F being depicted by FIG. 11;

FIG. 25 is a rear view of a block taken in the direction of arrow R in FIG. 2 the opposite side view taken in the direction of arrow F being depicted by FIG. 10;

FIG. 26 is a rear view of a block taken in the direction of arrow R in FIG. 2 the opposite side view taken in the direction of arrow F being depicted by FIG. 9;

FIG. 27 is a rear view of a block taken in the direction of arrow R in FIG. 2 the opposite side view taken in the direction of arrow F being depicted by FIG. 8;

FIG. 28 is a rear view of a block taken in the direction of arrow R in FIG. 2 the opposite side view taken in the direction of arrow F being depicted by FIG. 7;

FIG. 29 is a rear view of a block taken in the direction of arrow R in FIG. 2 the opposite side view taken in the direction of arrow F being depicted by FIG. 6; and,

FIG. 30 is a rear view of a block taken in the direction of arrow R in FIG. 2 the opposite side view taken in the direction of arrow F being depicted by FIG. 5.
