(57) **CLAIM**

The ornamental design for an automotive pillar with a storage compartment for cylindrical devices, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an automotive pillar with a storage compartment for cylindrical devices, showing our new design, with the cylindrical devices shown in broken lines; and,

FIG. 2 is another perspective view thereof shown without the cylindrical devices.

The broken line showing of environment is for illustrative purposes only and forms no part of the claimed design. The broken line boundary of the upper portion of the pillar defines the edge of the claimed design but forms no part of it.
