(57) **CLAIM**

The ornamental design for a surface pattern for embossed paper product, as shown and described.

**DESCRIPTION**

FIG. 1 is a plan view of the front surface pattern for embossed paper product of the invention; and,

FIG. 2 is a plan view of the reverse surface pattern for embossed paper product of the invention.

The broken lines define a portion of the embossed paper product and indicate that the pattern continues indeterminately in one or more directions, and repeats uniformly throughout the length and width of the embossed paper product. The broken lines form no part of the claimed design.

The surface pattern of the invention is for paper products.
