(57) **CLAIM**

The ornamental design for the article support rack/stand, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a first embodiment of the article support rack/stand showing our new design; FIG. 2 is a front elevation of the article support rack/stand of FIG. 1, the rear elevation view of the article support rack/stand being a mirror image of the front elevation view; FIG. 3 is a top plan view of FIG. 1; FIG. 4 is a bottom plan view of FIG. 1; FIG. 5 is a right side elevation view of FIG. 1, which is a mirror image of the left side elevation view; FIG. 6 is a front perspective view of a second embodiment of the article support rack/stand showing our new design; FIG. 7 is a front elevation view of the article support rack/stand of FIG. 6, the rear elevation view of the article support rack/stand being a mirror image of the front elevation view; FIG. 8 is a top plan view of FIG. 6; FIG. 9 is a sectional view taken along line IX—IX in FIG. 7; and, FIG. 10 is a right side elevation view of FIG. 6, which is a mirror image of the left side elevation view. The broken lines shown are for illustrative purposes only and form no part of the claimed design.
