(57) **CLAIM**

The ornamental design for an LED holder, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an LED holder showing our new design;

FIG. 2 is a top view thereof, a bottom view being a mirror image thereof;

FIG. 3 is a front view thereof;

FIG. 4 is a right side view thereof, a left side view being a mirror image thereof;

FIG. 5 is a rear view thereof;

FIG. 6 is a cross-sectional view thereof taken along the line VI—VI in FIG. 3;

FIG. 7 is an illustrative perspective view showing an LED holder holding a chip-type LED and a pair of chip-type resistors, the LED and resistors being shown in broken lines and forming no part of the claimed design;

FIG. 8 is another illustrative perspective view showing an LED holder in combination with a number of like LED holders, each holder holding a chip-type LED wherein the LEDs and additional LED holders are shown in broken lines and form no part of the claimed design; and,

FIG. 9 is another illustrative perspective view showing an LED holder holding a bullet-type LED and a chip-type resistor, the LED and resistor being shown in broken lines and forming no part of the claimed design.
