(57) **CLAIM**

The ornamental design for an electrical control device, as shown and described.

DESCRIPTION

The electrical control device mounts to an electrical box and is surrounded by a decorative faceplate to form an electrical device assembly.

FIG. 1 is a perspective view of an aspect of the electrical control device according to a decorative embodiment of the invention;

FIG. 2 is a front elevation view of the electrical control device shown in FIG. 1;

FIG. 3 is a top plan view of the electrical control device shown in FIG. 2;

FIG. 4 is a bottom plan view of the electrical control device shown in FIG. 2;

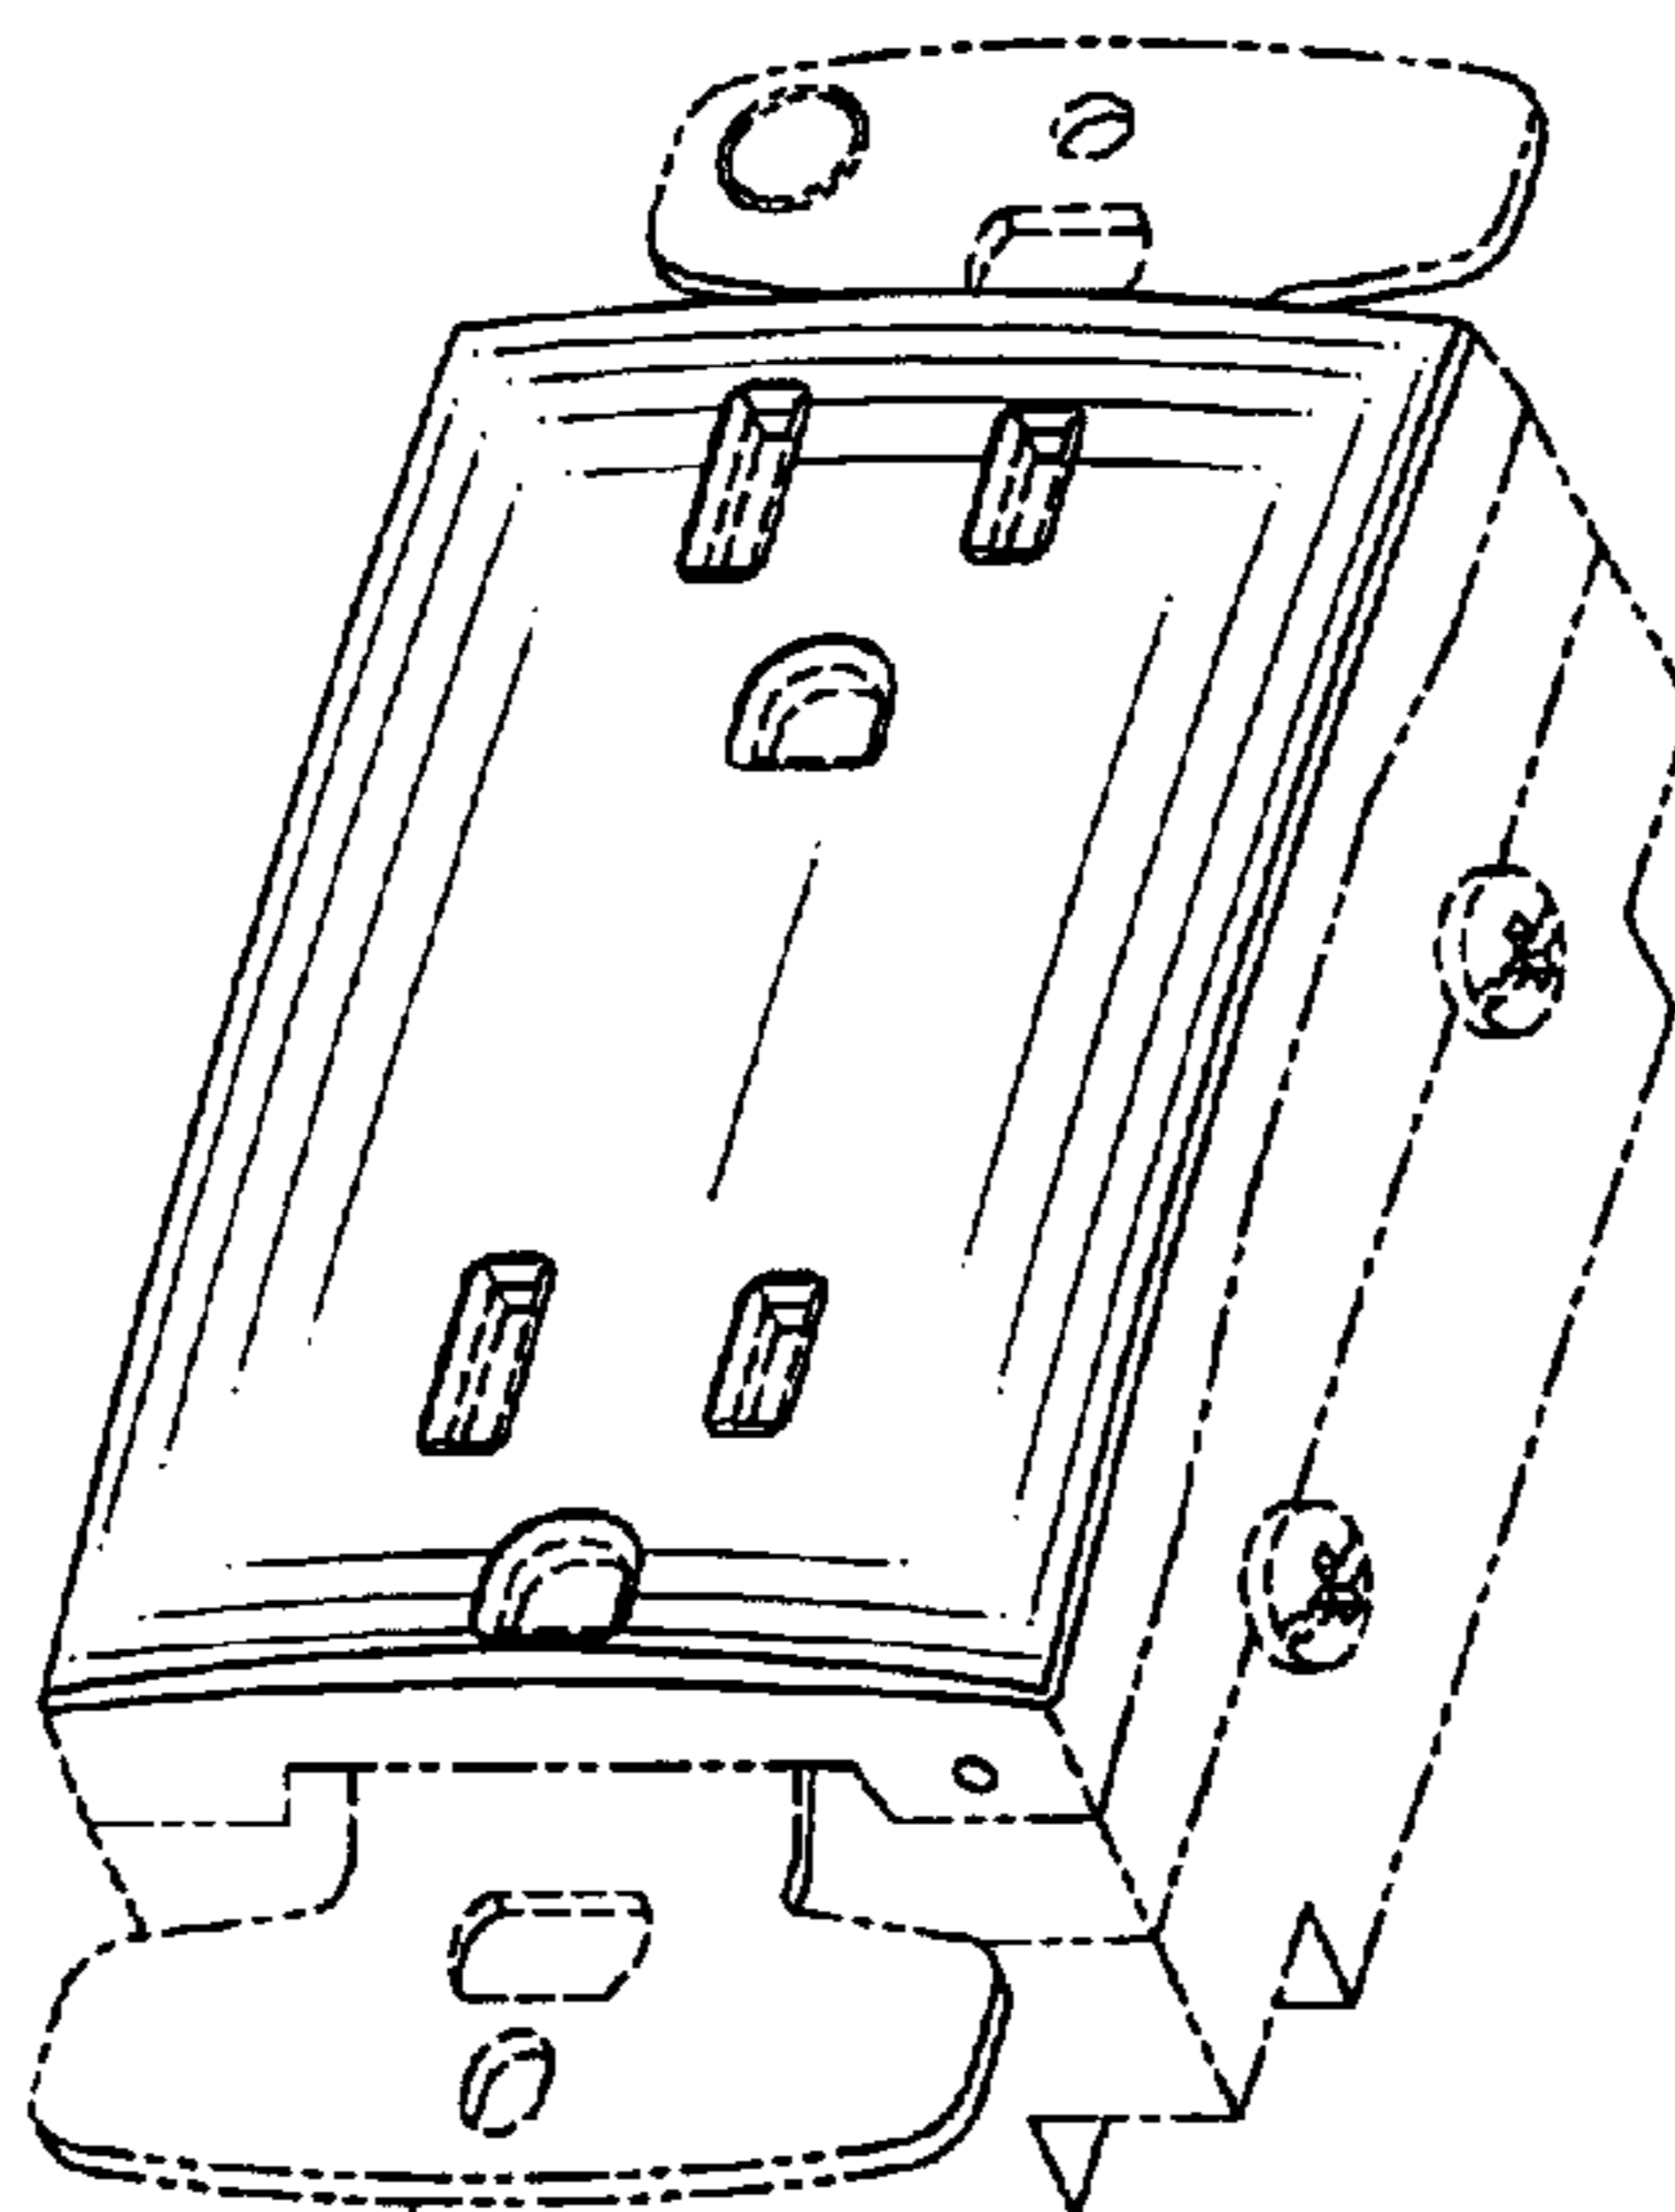

FIG. 5 is a left side elevation view of the electrical control device shown in FIG. 2;

FIG. 6 is a right side elevation view of the electrical control device shown in FIG. 2;

FIG. 7 is a perspective view of another aspect of the electrical control device according to a decorative embodiment of the invention; and,

FIG. 8 is a perspective view of another aspect of the electrical control device according to a decorative embodiment of the invention.
