(57) **CLAIM**

The ornamental design for a hand held compressor for  
compressing paste products, as shown and described.

**DESCRIPTION**

It is a hand-held device provided with a clearance which is  
designed to pass along flexible pipes for compressing paste-  
like products such as tooth-paste and the like, in order to  
help same to be dispensed, being kept self-locked on the site  
it is used thanks to an angled conformation of one of its  
sides.

FIG. 1 is a side view of the compressor;  
FIG. 2 is a top view of the compressor;  
FIG. 3 is a bottom view of the compressor;  
FIG. 4 is a view taken from one of the sides of the  
compressor;  
FIG. 5 is a view taken from the opposite side  
FIG. 6 is a top perspective view; and,  
FIG. 7 is a bottom perspective view.
