(57) **CLAIM**

The ornamental design for a handle, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the handle showing my new design looking downwardly at a front and left side thereof, and showing a tool blade and tang in the lower portion in broken lines attached to the handle;

FIG. 2 is an enlarged left side elevation view of the handle and a portion of the attached tool blade and tang in broken lines attached to the bottom of the handle;

FIG. 3 is a front elevation view of the handle;

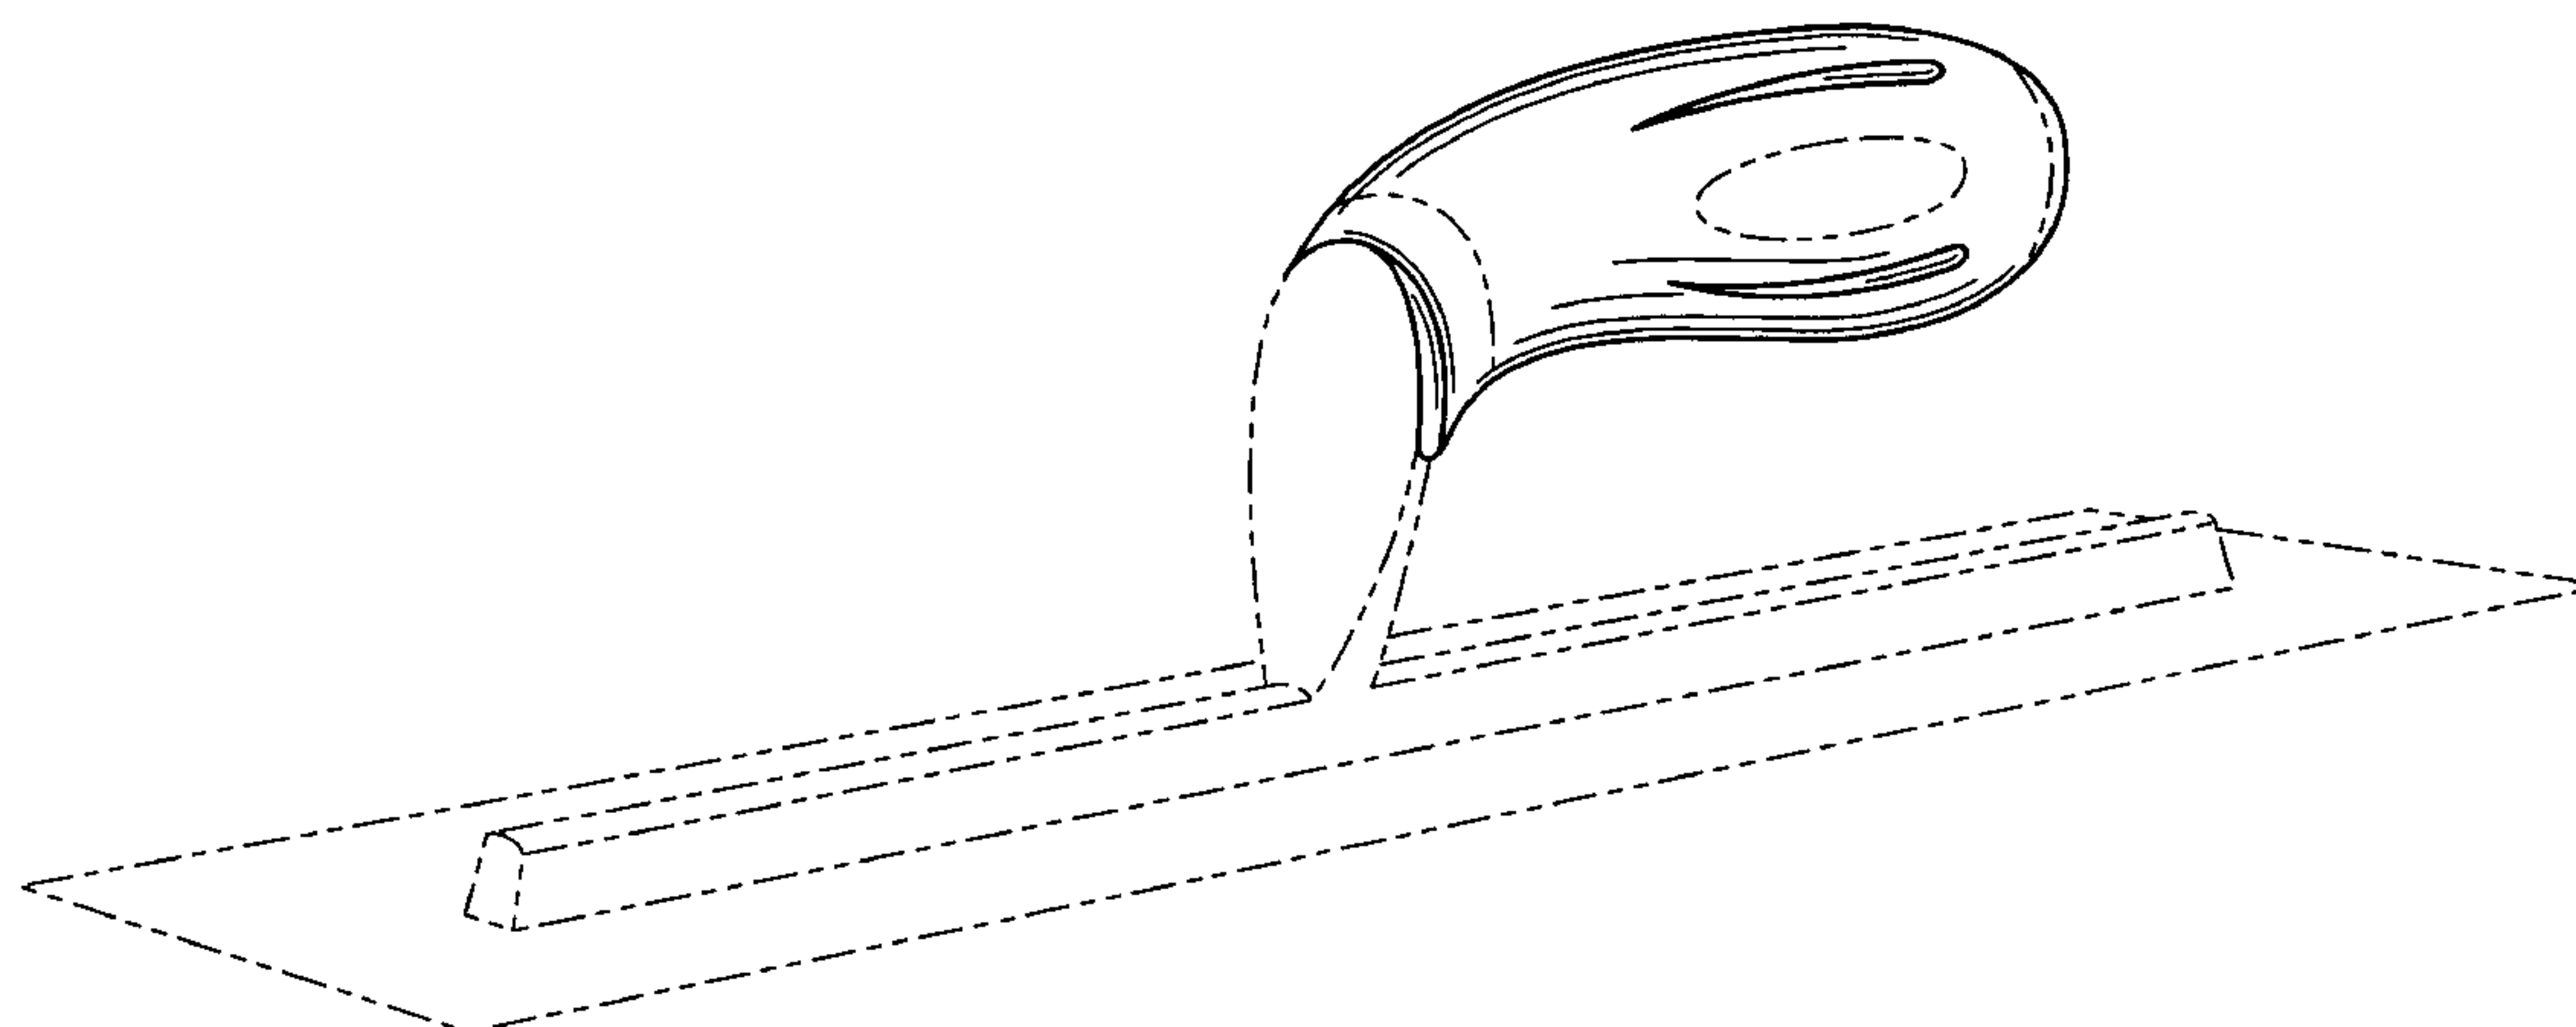

FIG. 4 is a rear elevation view of the handle and the attached tool blade and tang in broken lines below the handle;

FIG. 5 is a top plan view of the handle and a portion of the attached tool blade and tang in broken lines to the right and left; and,

FIG. 6 is a bottom plan view of the handle.

The broken lines showing the tool blade and tang, or portions thereof, attached to the handle, are for illustrative purposes only and form no part of the claimed design. The broken lines in the center and on the left and right side of the handle as shown in FIG. 2 are interface lines for different materials and are for illustrative purposes only, forming no part of the claimed design. A right side elevation view of the handle is a mirror image of the left side elevation view. In the left side elevation view, front elevation view, top plan view and bottom plan view of the handle, portions of unclaimed matter has been omitted for clarity.
