(57) **CLAIM**

The ornamental design for a magnetic fastener, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a magnetic fastener showing the first embodiment of my new design, with the rear elevational view being identical thereto;

FIG. 2 is a left side elevational view with the right side elevational view being identical thereto;

FIG. 3 is a top plan view thereof;

FIG. 4 is a bottom plan view thereof

FIG. 5 is a front elevational view of the front member of the magnetic fastener shown in FIG. 1, detached from the rear member, with the rear elevational view being identical thereto;

FIG. 6 is a left side elevational view with the right side elevational view being identical thereto;

FIG. 7 is a top plan view thereof corresponding to FIG. 3;

FIG. 8 is a bottom plan view thereof;

FIG. 9 is a front elevational view of the rear member of the magnetic fastener shown in FIG. 1, detached from the front member, with the rear elevational view being identical thereto;

FIG. 10 is a left side elevational view with the right side elevational view being identical thereto;

FIG. 11 is a top plan view thereof;

FIG. 12 is a bottom plan view thereof corresponding to FIG. 4;

FIG. 13 is a front elevational view of a magnetic fastener showing the second embodiment of my new design, with the rear elevational view being identical thereto;

FIG. 14 is a left side elevational view with the right side elevational view being identical thereto;

FIG. 15 is a top plan view thereof;
FIG. 16 is a bottom plan view thereof;
FIG. 17 is a front elevational view of the front member of the magnetic fastener shown in FIG. 13, detached from the rear member, with the rear elevational view being identical thereto;
FIG. 18 is a left side elevational view with the right side elevational view being identical thereto;
FIG. 19 is a top plan view thereof corresponding to FIG. 15;
FIG. 20 is a bottom plan view thereof;
FIG. 21 is a front elevational view of the rear member of the magnetic fastener shown in FIG. 13, detached from the front member, with the rear elevational view being identical thereto;
FIG. 22 is a left side elevational view with the right side elevational view being identical thereto;
FIG. 23 is a top plan view thereof;
FIG. 24 is a bottom plan view thereof corresponding to FIG. 16;
FIG. 25 is a front elevational view of a magnetic fastener showing the third embodiment of my new design, with the rear elevational view being identical thereto;
FIG. 26 is a left side elevational view with the right side elevational view being identical thereto;
FIG. 27 is a top plan view thereof;
FIG. 28 is a bottom plan view thereof;
FIG. 29 is a front elevational view of the front member of the magnetic fastener shown in FIG. 25, detached from the rear member, with the rear elevational view being identical thereto;
FIG. 30 is a left side elevational view with the right side elevational view being identical thereto;
FIG. 31 is a top plan view thereof corresponding to FIG. 27;
FIG. 32 is a bottom plan view thereof;
FIG. 33 is a front elevational view of the rear member of the magnetic fastener shown in FIG. 25, detached from the front member, with the rear elevational view being identical thereto;

FIG. 34 is a left side elevational view with the right side elevational view being identical thereto;
FIG. 35 is a top plan view thereof;
FIG. 36 is a bottom plan view thereof corresponding to FIG. 28;
FIG. 37 is a front elevational view of a magnetic fastener showing the fourth embodiment of my new design, with the rear elevational view with the right side elevational view being identical thereto;
FIG. 38 is a left side elevational view with the right side elevational view being identical thereto;
FIG. 39 is a top plan view thereof;
FIG. 40 is a bottom plan view thereof;
FIG. 41 is a front elevational view of the front member of the magnetic fastener shown in FIG. 37, detached from the rear member, with the rear elevational view being identical thereto;
FIG. 42 is a left side elevational view with the right side elevational view being identical thereto;
FIG. 43 is a top plan view thereof corresponding to FIG. 39;
FIG. 44 is a bottom plan view thereof;
FIG. 45 is a front elevational view of the rear member of the magnetic fastener shown in FIG. 37, detached from the front member, with the rear elevational view being identical thereto;
FIG. 46 is a left side elevational view with the right side elevational view being identical thereto;
FIG. 47 is a top plan view thereof; and,
FIG. 48 is a bottom plan view thereof corresponding to FIG. 40.

The elements are shown detached for clarity of illustration.
