(57) **CLAIM**

The ornamental design of the slatwall extrusion, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the new slatwall extrusion design shown with two panels and its connecting ends in broken lines;

FIG. 2 is a front view of the slatwall extrusion;

FIG. 3 is a rear view of the slatwall extrusion;

FIG. 4 is a top end view of the slatwall extrusion;

FIG. 5 is a bottom end view of the slatwall extrusion;

FIG. 6 is a side view of the slatwall extrusion;

FIG. 7 is a perspective view of a second embodiment of the new slatwall extrusion design shown with three panels and its ends in broken lines;

FIG. 8 is a side view of the second embodiment of the slatwall extrusion;

FIG. 9 is a perspective view of a third embodiment of the new slatwall extrusion design shown with four panels and its ends in broken lines; and,

FIG. 10 is a side view of the third embodiment of the slatwall extrusion.

The side views opposite those in FIGS. 6, 8 and 10 are mirror images. The broken lines showing the connecting ends and fastener holes are for illustrative purposes only and form no part of the claimed design. The remaining broken lines in the drawings are to disclose the indeterminate length of the slatwall extrusion and the indeterminate width of its panels.
