(57) **CLAIM**

The design for a carrying case for hand-held computing/controller device, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view illustrating a hand-held computing/controller device in accordance with the present invention;

FIG. 2 is a front view of the carrying case/carrier/holster for hand-held computing/controller device of FIG. 1;

FIG. 3 is a back view of the carrying case/carrier/holster for hand-held computing/controller device of FIG. 1;

FIG. 4 is a side view of the carrying case/carrier/holster for the hand-held computing/controller device of FIG. 1;

FIG. 5 is another side view of the carrying case/carrier/holster for the hand-held computing/controller device of FIG. 1;

FIG. 6 is an end view of the carrying case/carrier/holster for the hand-held computing/controller device of FIG. 1; and

FIG. 7 is another end view of the carrying case/carrier/holster for the hand-held computing/controller device of FIG. 1;

As shown in FIGS. 1 through 7, the device of the present invention includes two portions adapted to receive and hold/carry one or more devices.
