(57) **CLAIM**

The ornamental design for a handle for a kitchen utensil, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of a handle for a kitchen utensil according to the present invention, with an attached measuring cup shown in phantom lines, not forming a part of the invention.

FIG. 2 is a top view of the handle shown in FIG. 1 with an attached measuring cup shown in phantom lines, not forming a part of the invention.

FIG. 3 is a bottom view of the handle shown in FIGS. 1 and 2 with an attached measuring cup shown in phantom lines, not forming a part of the invention.

FIG. 4 is a left side view of the handle shown in FIGS. 1-3 with an attached measuring cup shown in phantom lines, not forming a part of the invention, the right side being a mirror image.

FIG. 5 is a front end view of the handle with an attached measuring cup shown in phantom lines, not forming a part of the invention.

FIG. 6 is a rear end view of the handle with an attached measuring cup shown in phantom lines, not forming a part of the invention.

FIG. 7 is a perspective view of a second embodiment of a handle according to the invention with an attached measuring spoon shown in phantom lines, not forming a part of the present invention.

FIG. 8 is a right side view of the handle shown in FIG. 7, with an attached measuring spoon shown in phantom lines, not forming a part of the present invention.

FIG. 9 is a front view of the handle shown in FIGS. 7 and 8, with an attached measuring spoon shown in phantom lines, not forming a part of the present invention.

FIG. 10 is a top view of the handle shown in FIGS. 7-9, with an attached measuring spoon shown in phantom lines, not forming a part of the present invention.

FIG. 11 is a rear end view of the handle shown in FIGS. 7-10, with an attached measuring spoon shown in phantom lines, not forming a part of the present invention; and,

FIG. 12 is a bottom view of the handle shown in FIGS. 7-10, with an attached measuring spoon shown in phantom lines, not forming a part of the present invention.
