(57) **CLAIM**

The ornamental design for an object for the control of a
remote controlled toy flying saucer through attitudinal ori-
entation of the object, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an object for the control of
a remote controlled toy flying saucer through attitudinal
orientation of the object.

FIG. 2 is a bottom view of the object for the control of a
remote controlled toy flying saucer through attitudinal ori-
entation of the object of FIG. 1; and,

FIG. 3 is a back view of the object for the control of a remote
controlled toy flying saucer through attitudinal orientation of
the object of FIG. 1.

The broken lines shown in FIGS. 1-3 are for illustrative
purposes only and form no part of the claimed design.
