(57) **CLAIM**

The ornamental design for a flashlight, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevational view of a flashlight according to a first embodiment of the present invention.  
FIG. 2 is a rear elevational view of the flashlight according to the first embodiment of the present invention.  
FIG. 3 is a top plan view of the flashlight according to the first embodiment of the present invention.  
FIG. 4 is a left side elevational view of the flashlight according to the first embodiment of the present invention, the right side elevational view being a mirror image.  
FIG. 5 is a bottom plan view of the flashlight according to the first embodiment of the present invention.

FIG. 6 is a front elevational view of a flashlight according to a second embodiment of the present invention.  
FIG. 7 is a rear elevational view of the flashlight according to the second embodiment of the present invention.  
FIG. 8 is a top plan view of the flashlight according to the second embodiment of the present invention.  
FIG. 9 is a left side elevational view of the flashlight according to the second embodiment of the present invention, the right side elevational view being a mirror image.  
FIG. 10 is a bottom plan view of the flashlight according to the second embodiment of the present invention.  
FIG. 11 is a front elevational view of a flashlight according to a third embodiment of the present invention.  
FIG. 12 is a rear elevational view of the flashlight according to the third embodiment of the present invention.  
FIG. 13 is a top plan view of the flashlight according to the third embodiment of the present invention.  
FIG. 14 is a left side elevational view of the flashlight according to the third embodiment of the present invention, the right side elevational view being a mirror image.  
FIG. 15 is a bottom plan view of the flashlight according to the third embodiment of the present invention.  
FIG. 16 is a front elevational view of a flashlight according to a fourth embodiment of the present invention.  
FIG. 17 is a rear elevational view of the flashlight according to the fourth embodiment of the present invention.  
FIG. 18 is a top plan view of the flashlight according to the fourth embodiment of the present invention.  
FIG. 19 is a left side elevational view of the flashlight according to the fourth embodiment of the present invention, the right side elevational view being a mirror image.  
FIG. 20 is a bottom plan view of the flashlight according to the fourth embodiment of the present invention.  
FIG. 21 is a front elevational view of a flashlight according to a fifth embodiment of the present invention.  
FIG. 22 is a rear elevational view of the flashlight according to the fifth embodiment of the present invention.  
FIG. 23 is a top plan view of the flashlight according to the fifth embodiment of the present invention.  
FIG. 24 is a left side elevational view of the flashlight according to the fifth embodiment of the present invention, the right side elevational view being a mirror image; and,  
FIG. 25 is a bottom plan view of the flashlight according to the fifth embodiment of the present invention.
