(57) **CLAIM**

The ornamental design for a translucent product holding shelf with inclusions, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a translucent product holding shelf showing our new design.
FIG. 2 is a top plan view thereof.
FIG. 3 is a bottom plan view thereof.
FIG. 4 is a front elevational view thereof, the rear elevational view being a mirror image thereof.
FIG. 5 is a left side elevational view thereof, the right side elevational view being a mirror image thereof; and,
FIG. 6 is a cross-sectional view taken along line 6—6 of FIG. 3 showing the inclusions embedded in the translucent shelf structure thereof, the cross-sectional view being taken solely through the floor portion and peripheral side wall associated thereof.

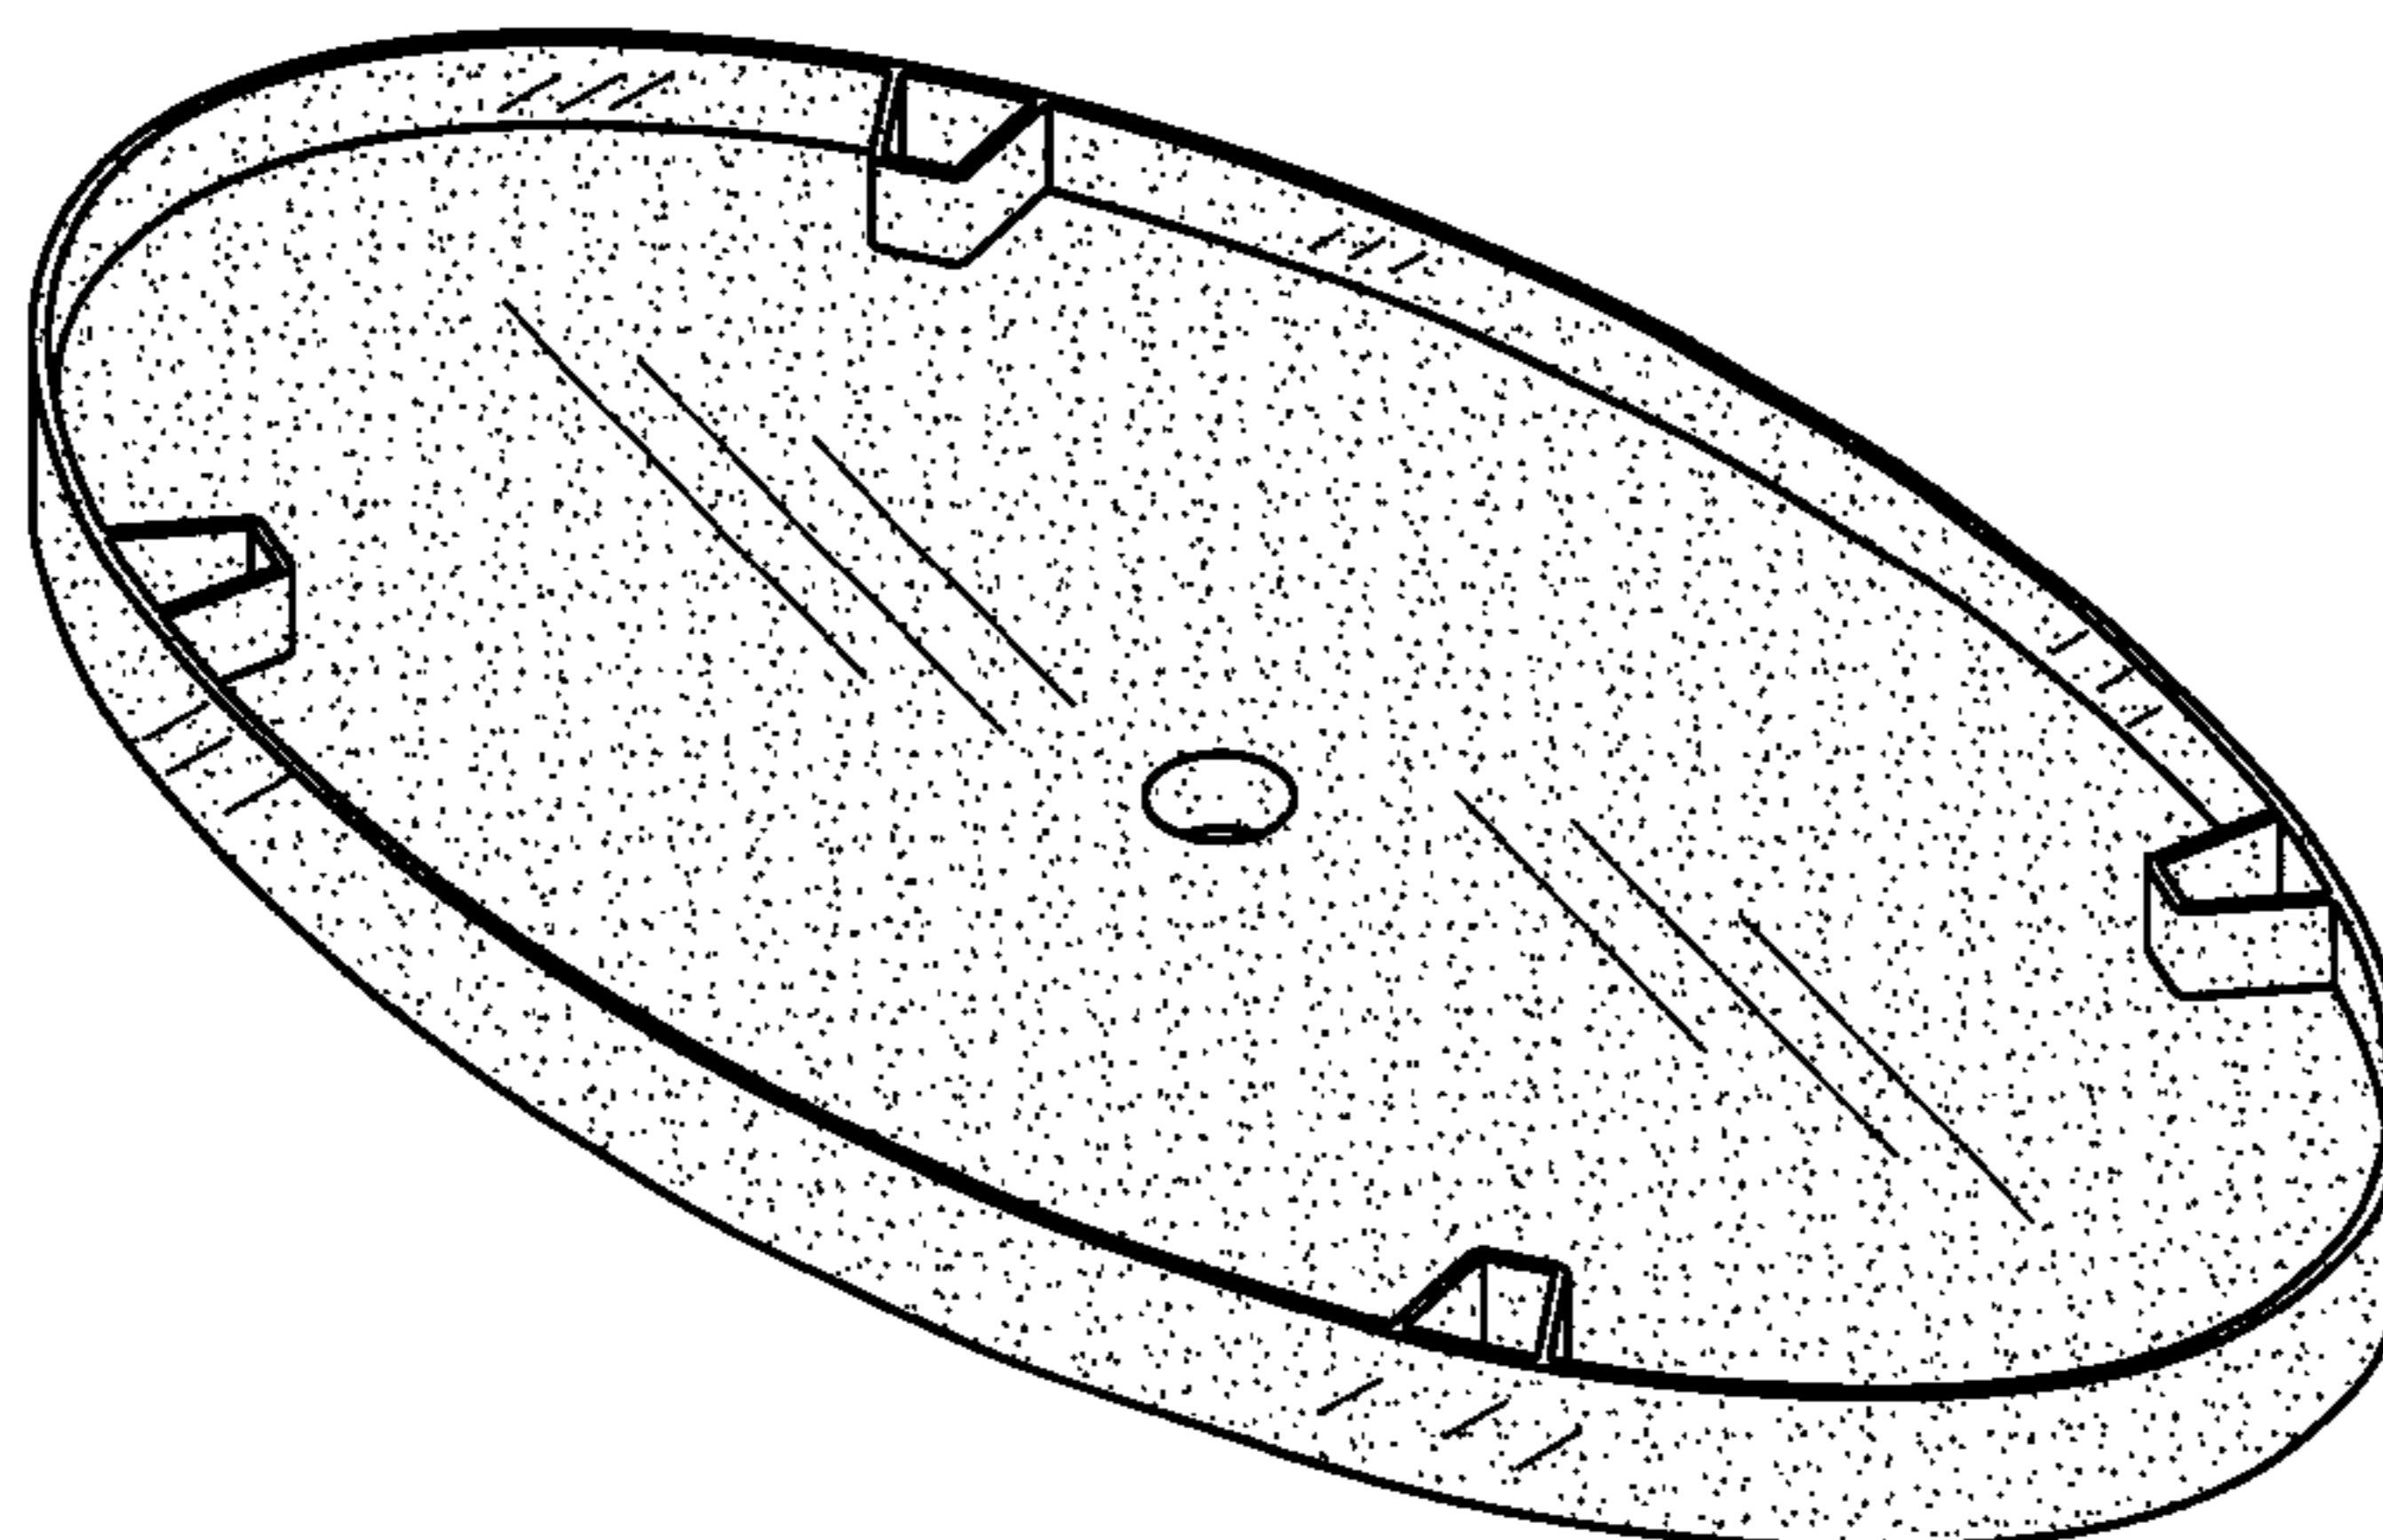

A description of the appearance of the article is as follows: A product holding shelf for use in holding and merchandising products therefrom made of a translucent material wherein the translucent material includes a plurality of inclusions embedded within the material which can be seen and viewed through the translucent material. The translucent material may be of any color so long as the inclusions may be viewed therethrough.
