DESCRIPTION

FIG. 1 is a perspective view of a depilatory device tip with additional optional features indicated in broken lines; FIG. 2 is a front elevation of the depilatory device tip with additional optional features indicated in broken lines; FIG. 3 is a rear elevation of the depilatory device tip with additional optional features indicated in broken lines; FIG. 4 is a right side elevation of the depilatory device tip with additional optional features indicated in broken lines; FIG. 5 is a left side elevation of the depilatory device tip with additional optional features indicated in broken lines; FIG. 6 is a top plan view of the depilatory device tip with additional optional features indicated in broken lines; and, FIG. 7 is a bottom plan view of the depilatory device tip with additional optional features indicated in broken lines.

The broken lines immediately adjacent the shaded areas within the solid line disclosure of the depilatory device tip represent the bounds of the claim and all other broken lines are for illustrative purposes only. None of the broken lines form a part of the claimed design.
