DESCRIPTION

The instant shallow dish is specifically not claimed, but is shown in phantom lines as an example of a kind of food plate that can supported by the invention disclosed in a utility patent application filed on Sep. 30, 2003. The undersigned is also the applicant in said utility patent application, entitled "Support Fixture for Food Plate and Beverage Container." FIG. 1 is a top perspective view of a shallow dish with central hole showing my new design; FIG. 2 is a side elevation view thereof; and, FIG. 3 is a cross-sectional view thereof taken along the center of FIG. 1.

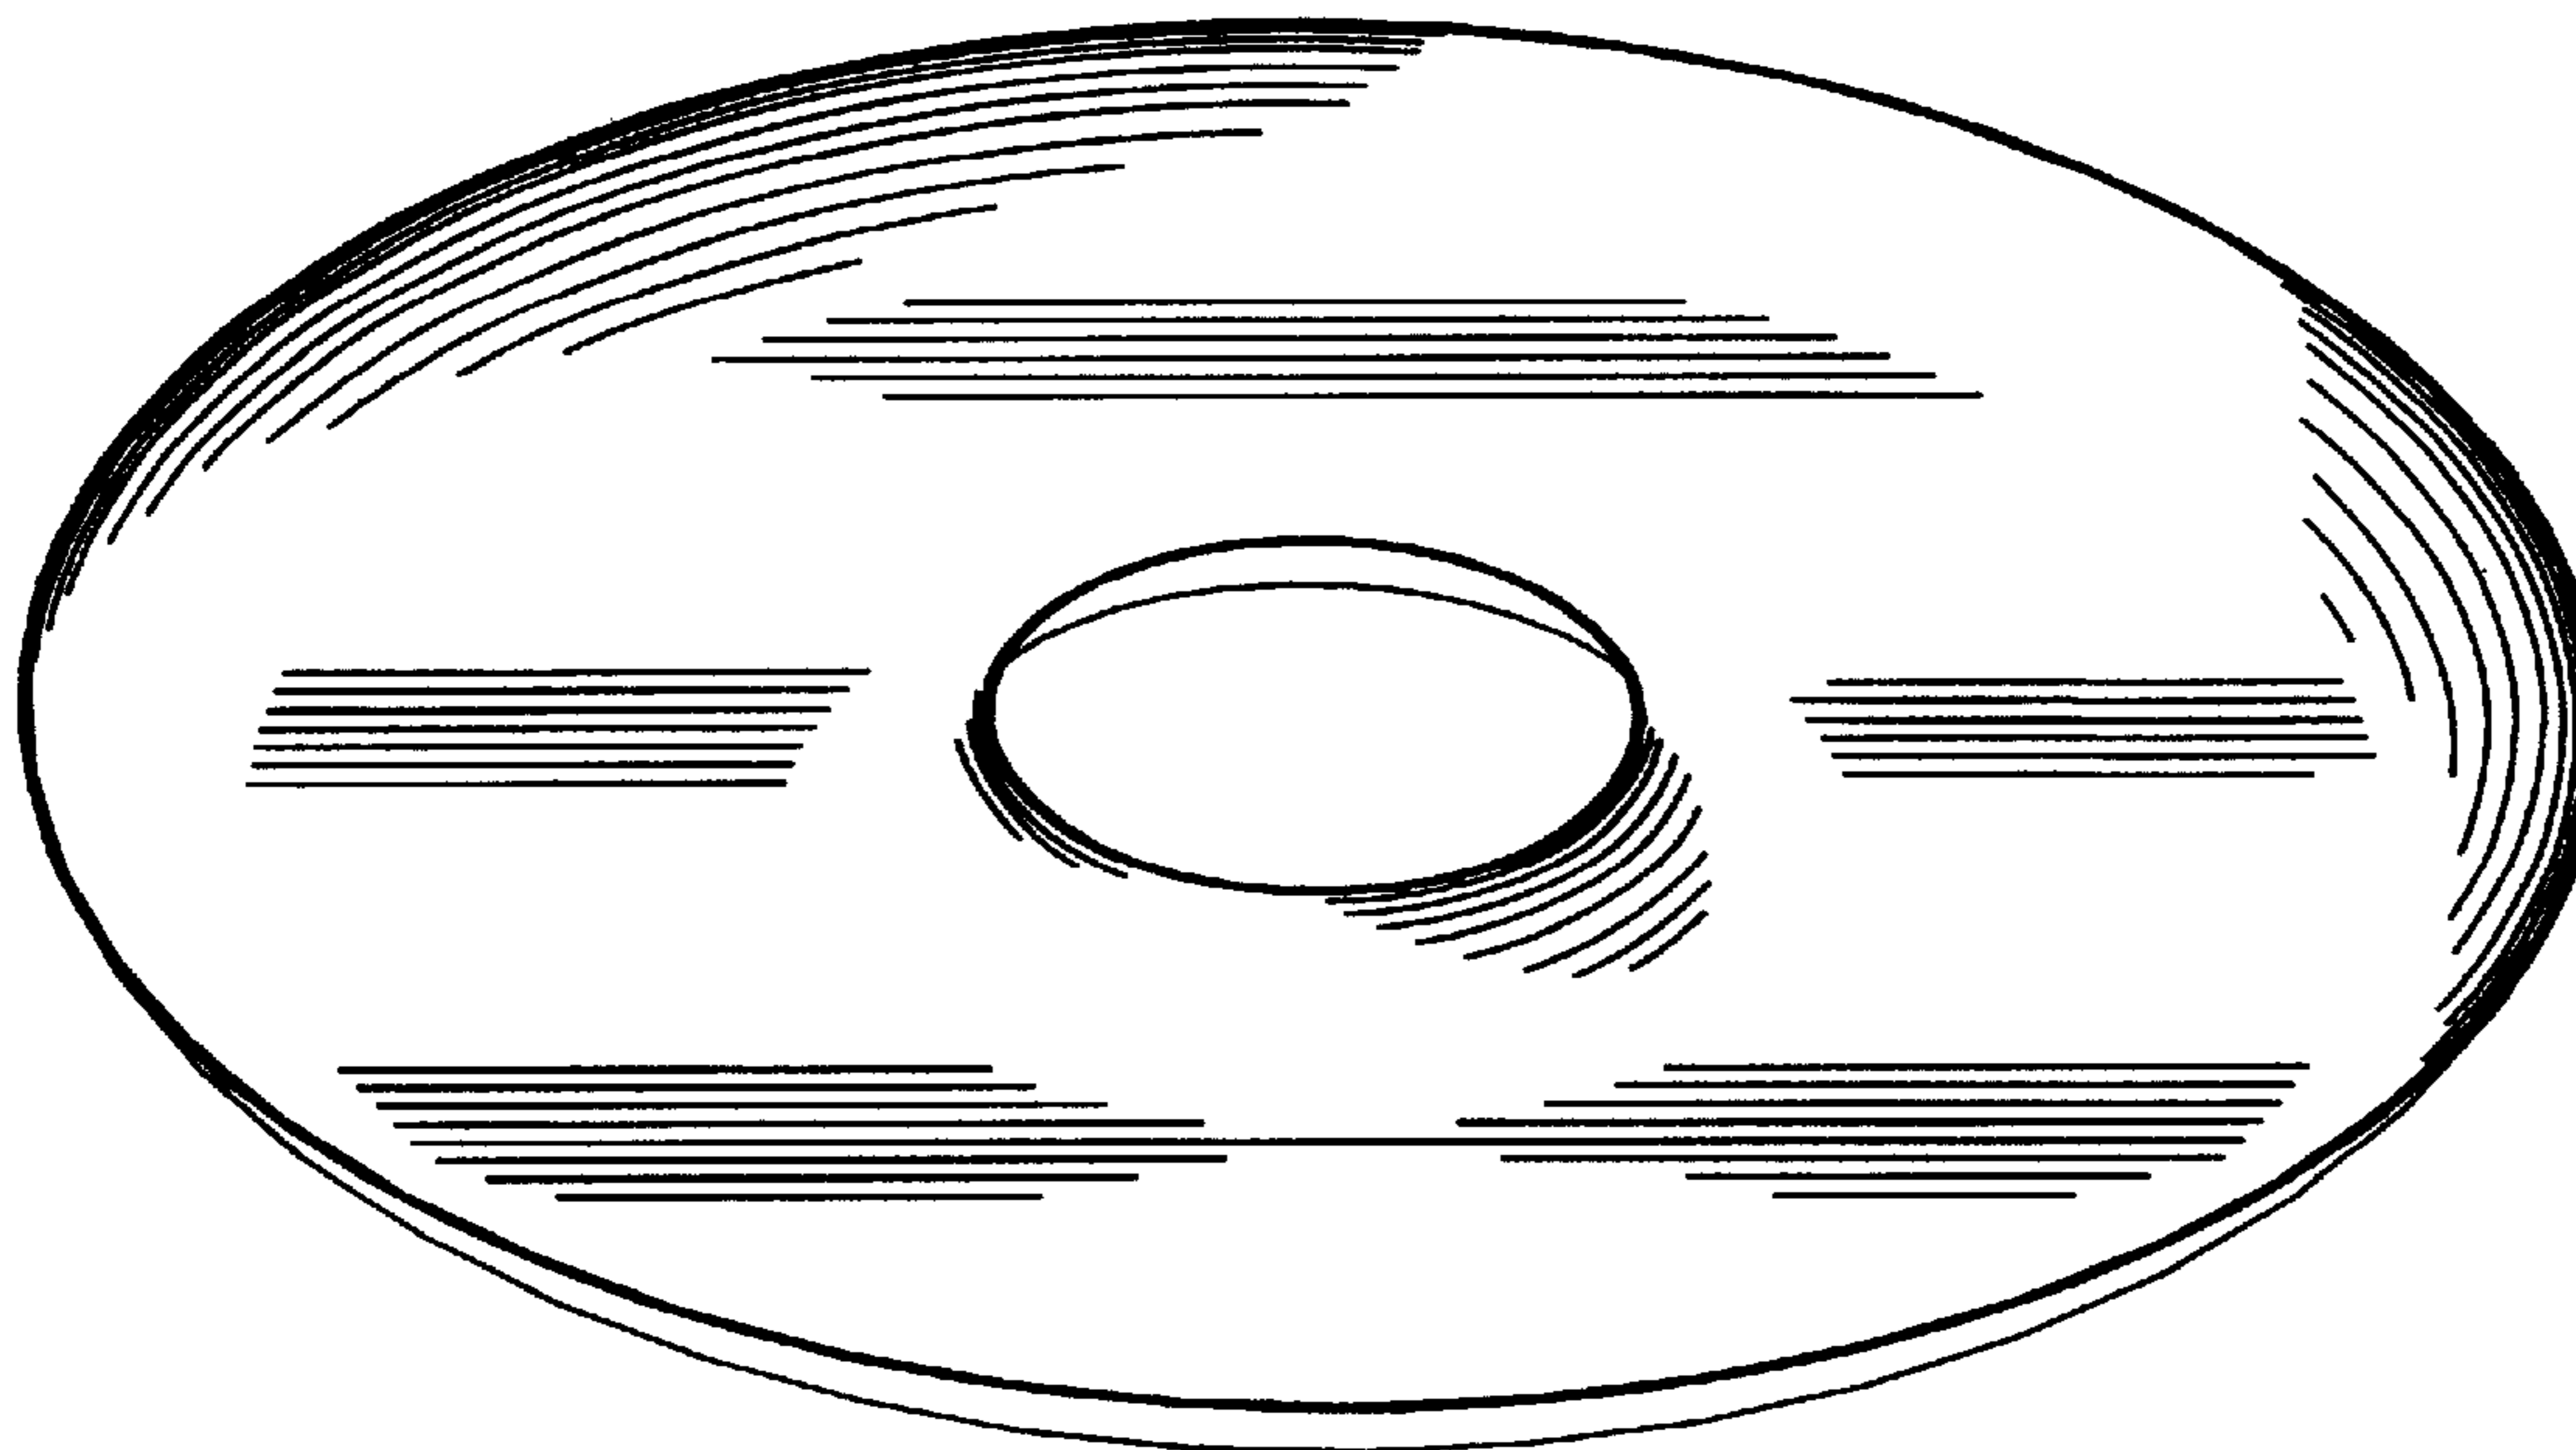

A shallow, thin, flat-bottomed, radially symmetric dish or food plate having a central hole; all surfaces are smooth and unornamented, the inner and outer edges turn arcuately upwards.
