(57) **CLAIM**

The ornamental design for a solar cooker with globe shape, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the solar cooker with globe shape showing our new design supported by a toroidal ring; FIG. 2 is a side elevational view, which also represents a view of the front, rear and opposite side; FIG. 3 is a top plan view. FIG. 4 is a bottom plan view. FIG. 5 is another perspective view; showing the upper globe portion partially rotated relative to the toroidal ring; FIG. 6 is a front elevational view of FIG. 5; and FIG. 7 is a side elevational view of FIG. 5; and, FIG. 8 is a side elevational view showing the reflector in an alternate position relative to the globe.
