(57) **CLAIM**

The ornamental design for a single-channel power amplifier
face plate, as shown and described.

DESCRIPTION

A portion of the disclosure of this design patent document
contains material to which a claim of copyright protection is
made. The copyright owner has no objection to the facsimile
reproduction of the patent document or the patent disclosure
as it appears in the United States Patent and Trademark
Office file or records, but reserves all other copyrights.

FIG. 1 is a perspective view of a single-channel power
amplifier face plate, in accordance with the present inven-
tion.

FIG. 2 is a front view of a single-channel power amplifier
face plate, in accordance with the present invention.

FIG. 3 is a rear view of a single-channel power amplifier
face plate, in accordance with the present invention.

FIG. 4 is a side view of a single-channel power amplifier
face plate, in accordance with the present invention.

FIG. 5 is an opposing side view of a single-channel power
amplifier face plate, in accordance with the present inven-
tion.

FIG. 6 is a top view of a single-channel power amplifier
face plate, in accordance with the present invention; and,

FIG. 7 is a bottom view of a single-channel power amplifier
face plate, in accordance with the present invention.

Broken lines shown in any of the foregoing figures represent
the environment only and do not constitute any part of the
invention.
