DESCRIPTION

FIG. 1 is a front perspective view of a headband being worn on a person's head showing my new design; FIG. 2 is a front perspective view of the headband shown in FIG. 1 arranged as though being worn on a person's head but with the head not illustrated; FIG. 3 is a left side elevation view of the headband of FIG. 1, the right view of which is a mirror image of the left side; FIG. 4 is a front elevation view of the headband of FIG. 1; FIG. 5 is a top plan view of the headband of FIG. 1; and, FIG. 6 is a rear elevation view of the headband of FIG. 1. The intermittently shown cross hatching represents material and is understood to be distributed uniformly all across the surfaces on which it is represented. The broken lines illustrating a person's head in FIG. 1 are for purposes of information only and form no part of the claimed design.
