(57) **CLAIM**

The ornamental design for a volatile emitting lantern, as shown and described.

**DESCRIPTION**

In a preferred embodiment, the nature of this product is a volatile emitting insect control lantern. FIG. 1 is a top, left, front perspective view of a volatile emitting lantern embodying our new design; FIG. 2 is a left side elevational view thereof, the right side elevational view being identical to the left side elevational view shown; FIG. 3 is a front elevational view thereof, the rear elevational view being identical to the front elevational view shown; FIG. 4 is a top plan view thereof; FIG. 5 is a bottom plan view hereof; and, FIG. 6 is a front elevational view of a second embodiment of a volatile emitting lantern embodying our new design. The broken line representations of internal structure in FIGS. 1 and 4, of assembly structure in FIGS. 2, 3 and 6, and of a hanger in FIG. 6 are for the purpose of illustration only, and form no part of the claimed design.
