(57) **CLAIM**

The ornamental design for a container closure with handle, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a container closure with handle in accordance with our new design, shown with the handle in the stored position;

FIG. 2 is a top plan view thereof;

FIG. 3 is a left side elevational view thereof, a right side elevational view thereof being a mirror image;

FIG. 4 is a front elevational view thereof;

FIG. 5 is a rear elevational view thereof;

FIG. 6 is a perspective view of the container closure with handle shown with the handle in the use position;

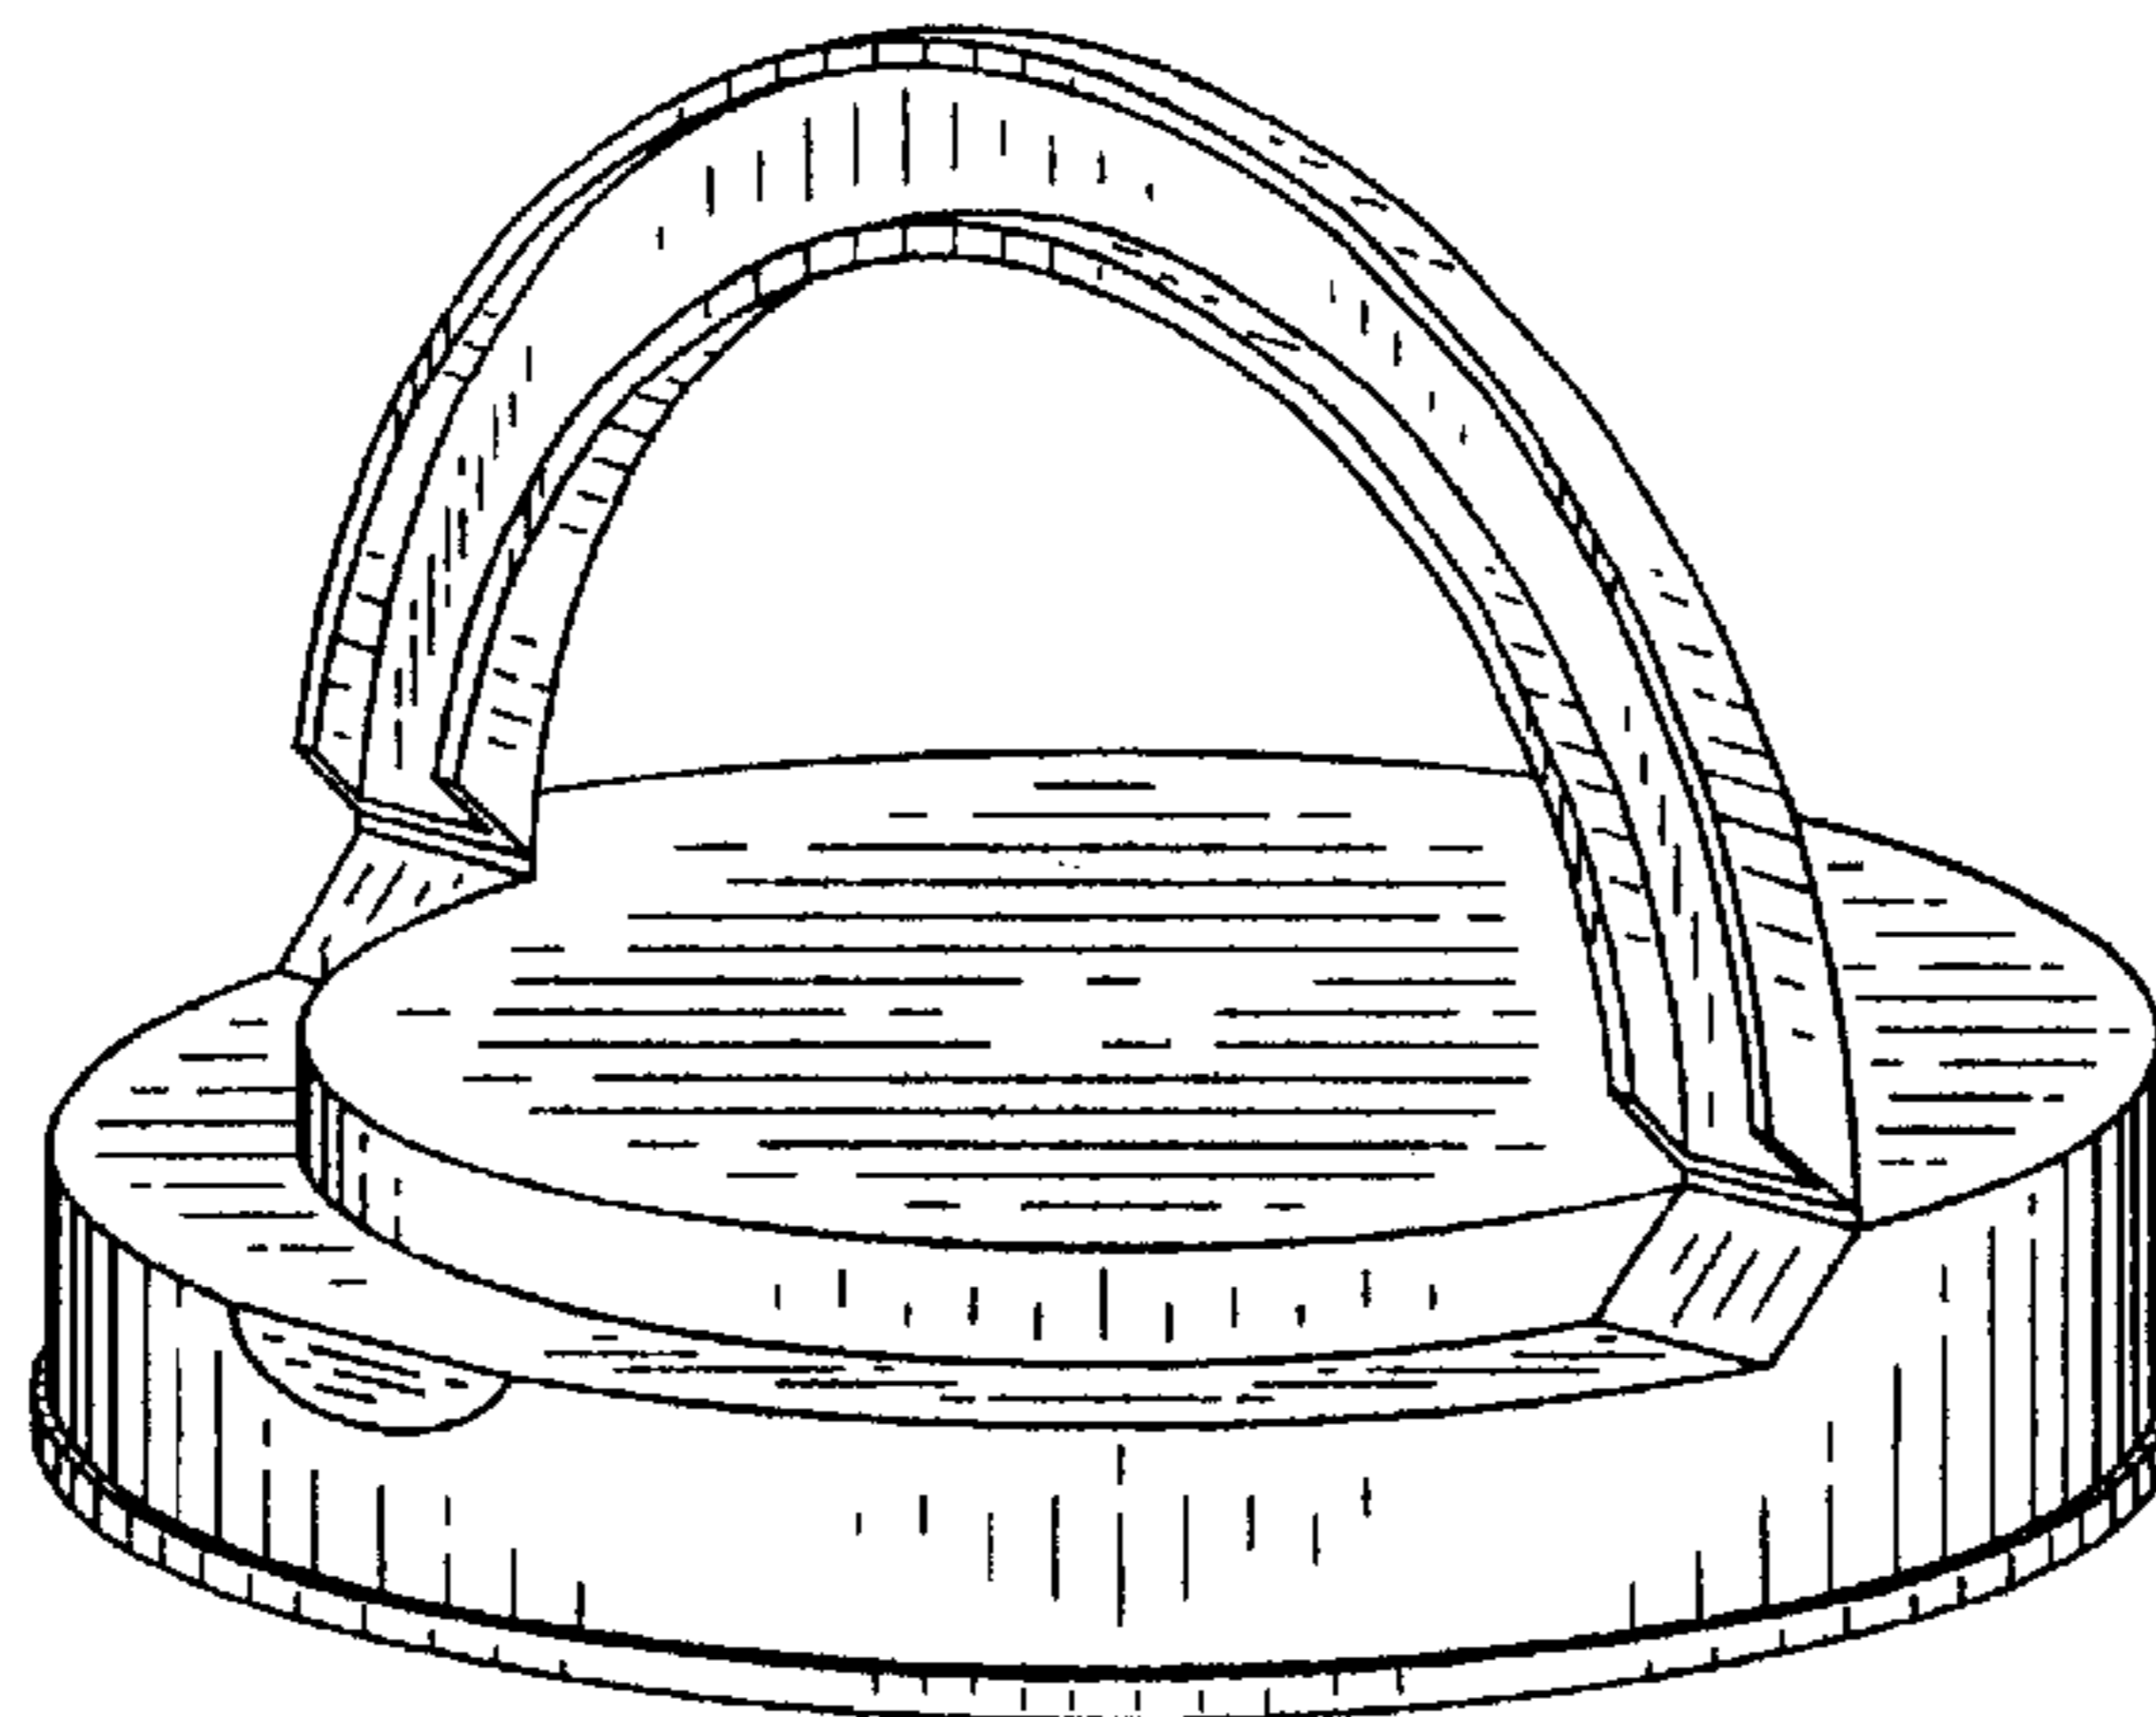

FIG. 7 is a top plan thereof with the handle shown in the use position;

FIG. 8 is a left side elevational view thereof with the handle shown in the use position, a right side elevational view thereof being a mirror image;

FIG. 9 is a front elevational view thereof with the handle shown in the use position; and,

FIG. 10 is a rear view thereof with the handle shown in the use position.
