(57) **CLAIM**

The ornamental design for a set of plates for ergonomic repositioning of motorcycle forward controls, as shown and described.

**DESCRIPTION**

FIG. 1 is a front perspective view of the right plate of the set of plates for ergonomic repositioning of motorcycle forward controls of my new design, the front perspective view of the left plate of the set of plates for ergonomic repositioning of motorcycle forward controls being a mirror image thereof; FIG. 2 is a front elevational view of the right plate of FIG. 1, the front elevational view of the left plate being a mirror image thereof;

FIG. 3 is a rear elevational view of the right plate, the rear elevational view of the left plate being a mirror image thereof;

FIG. 4 is a top plan view of the right plate, the top plan view of the left plate being a mirror image thereof;

FIG. 5 is a bottom plan view of the right plate, the bottom plan view of the left plate being a mirror image thereof;

FIG. 6 is a right side elevational view of the right plate, the left side elevational view of the left plate being a mirror image thereof; and,

FIG. 7 is a left side elevational view of the right plate, the right side elevational view of the left plate being a mirror image thereof.
