(57)**CLAIM**

The ornamental design for a surface configuration of a rear bumper for a vehicle, as shown and described.

DESCRIPTION

This application is related to the following co-pending application, of the inventors, filed on even date herewith: Application Ser. No. 29/199,263, entitled "Surface Configuration of a Vehicle, Toy and/or Other Replicas".

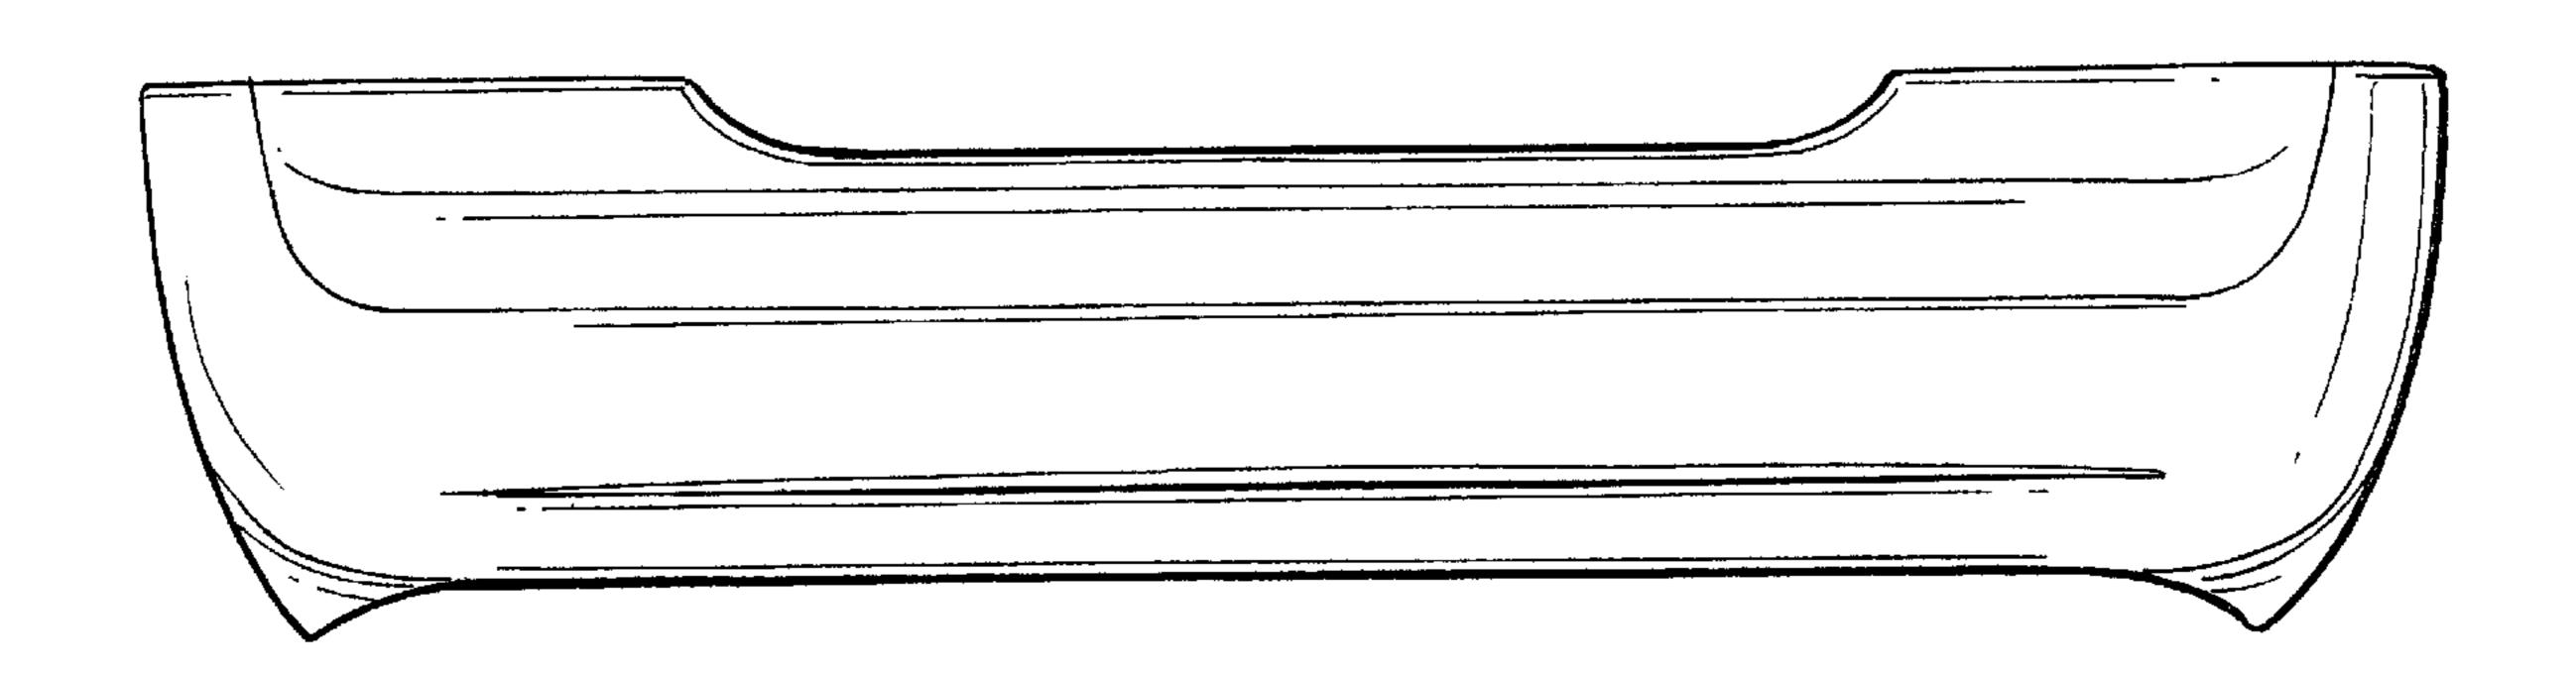

FIG. 1 is a left perspective view of a surface configuration of a rear bumper for a vehicle according to our novel design, the right perspective view being mirror symmetrical;

FIG. 2 is a left side view of the surface configuration of a rear bumper for vehicle according to our novel design, the right side view being mirror symmetrical; and,

FIG. 3 is a front view of the surface configuration of a rear bumper for a vehicle according to our novel design.

The broken lines are for illustrative purposes only and form no part of the claimed design.
