(57) **CLAIM**

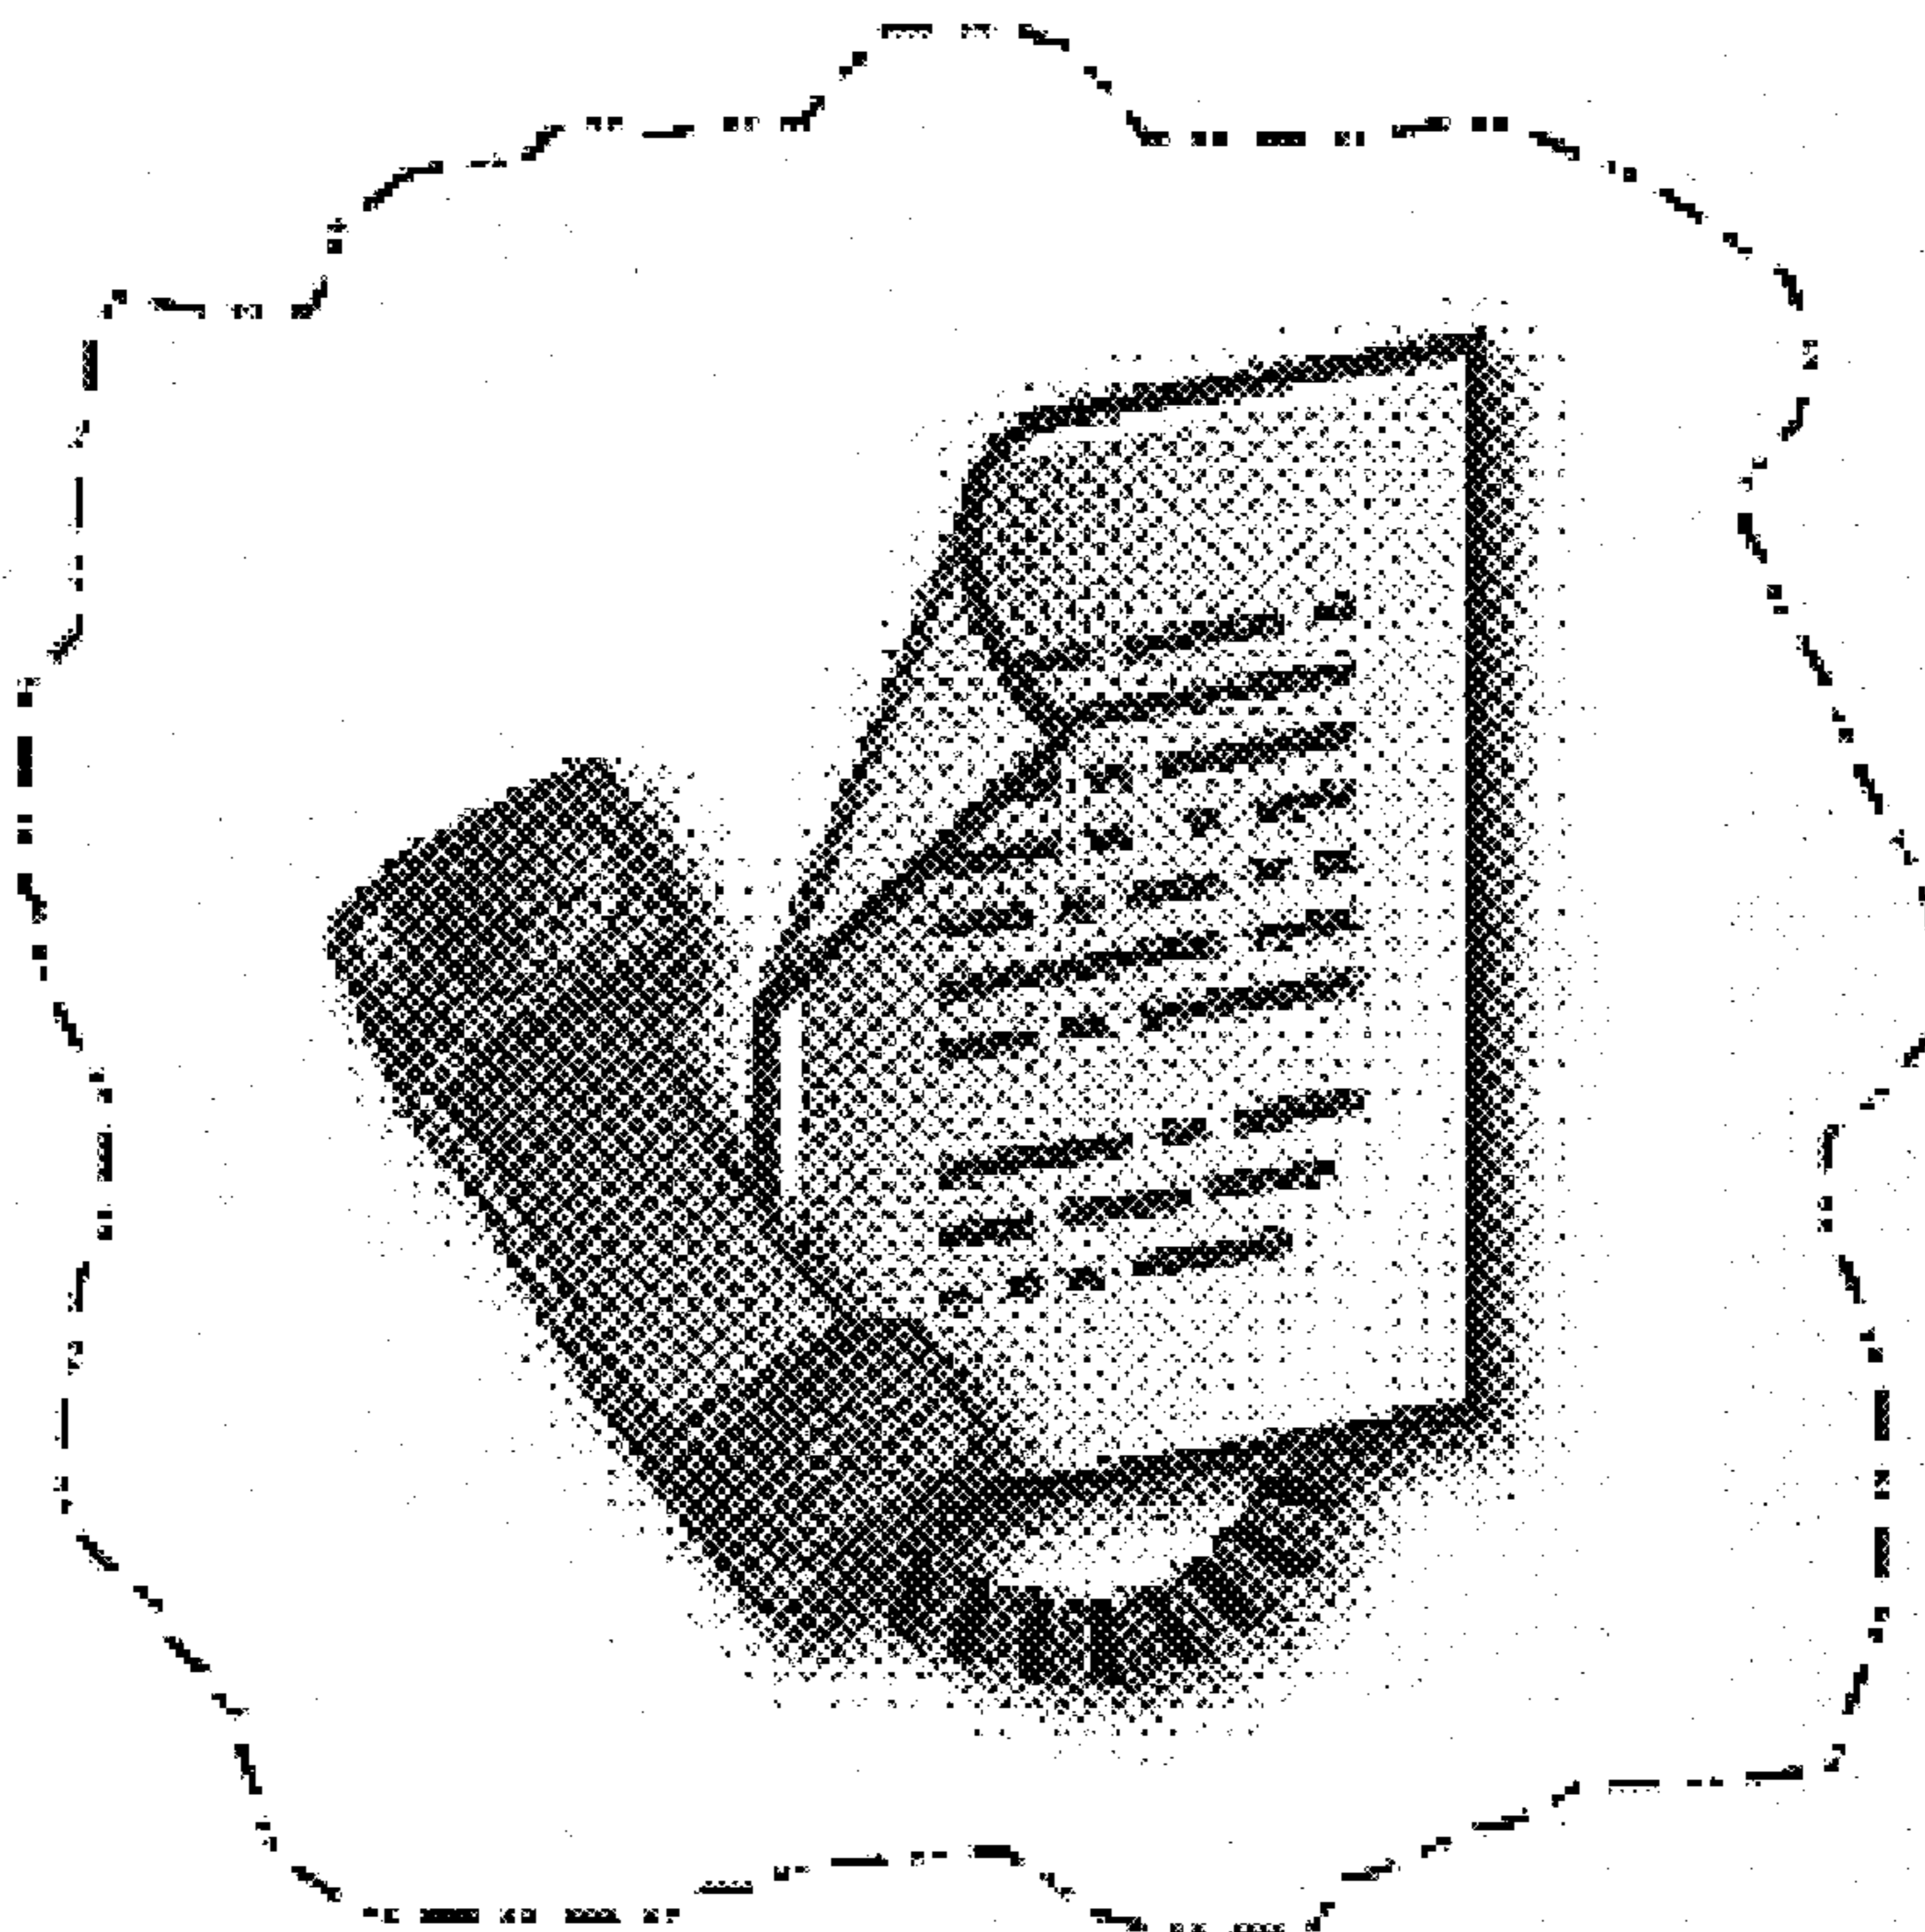

The ornamental design for touch base user interface service  
selection icon for a portion of an image processing office  
machine, as shown and described.

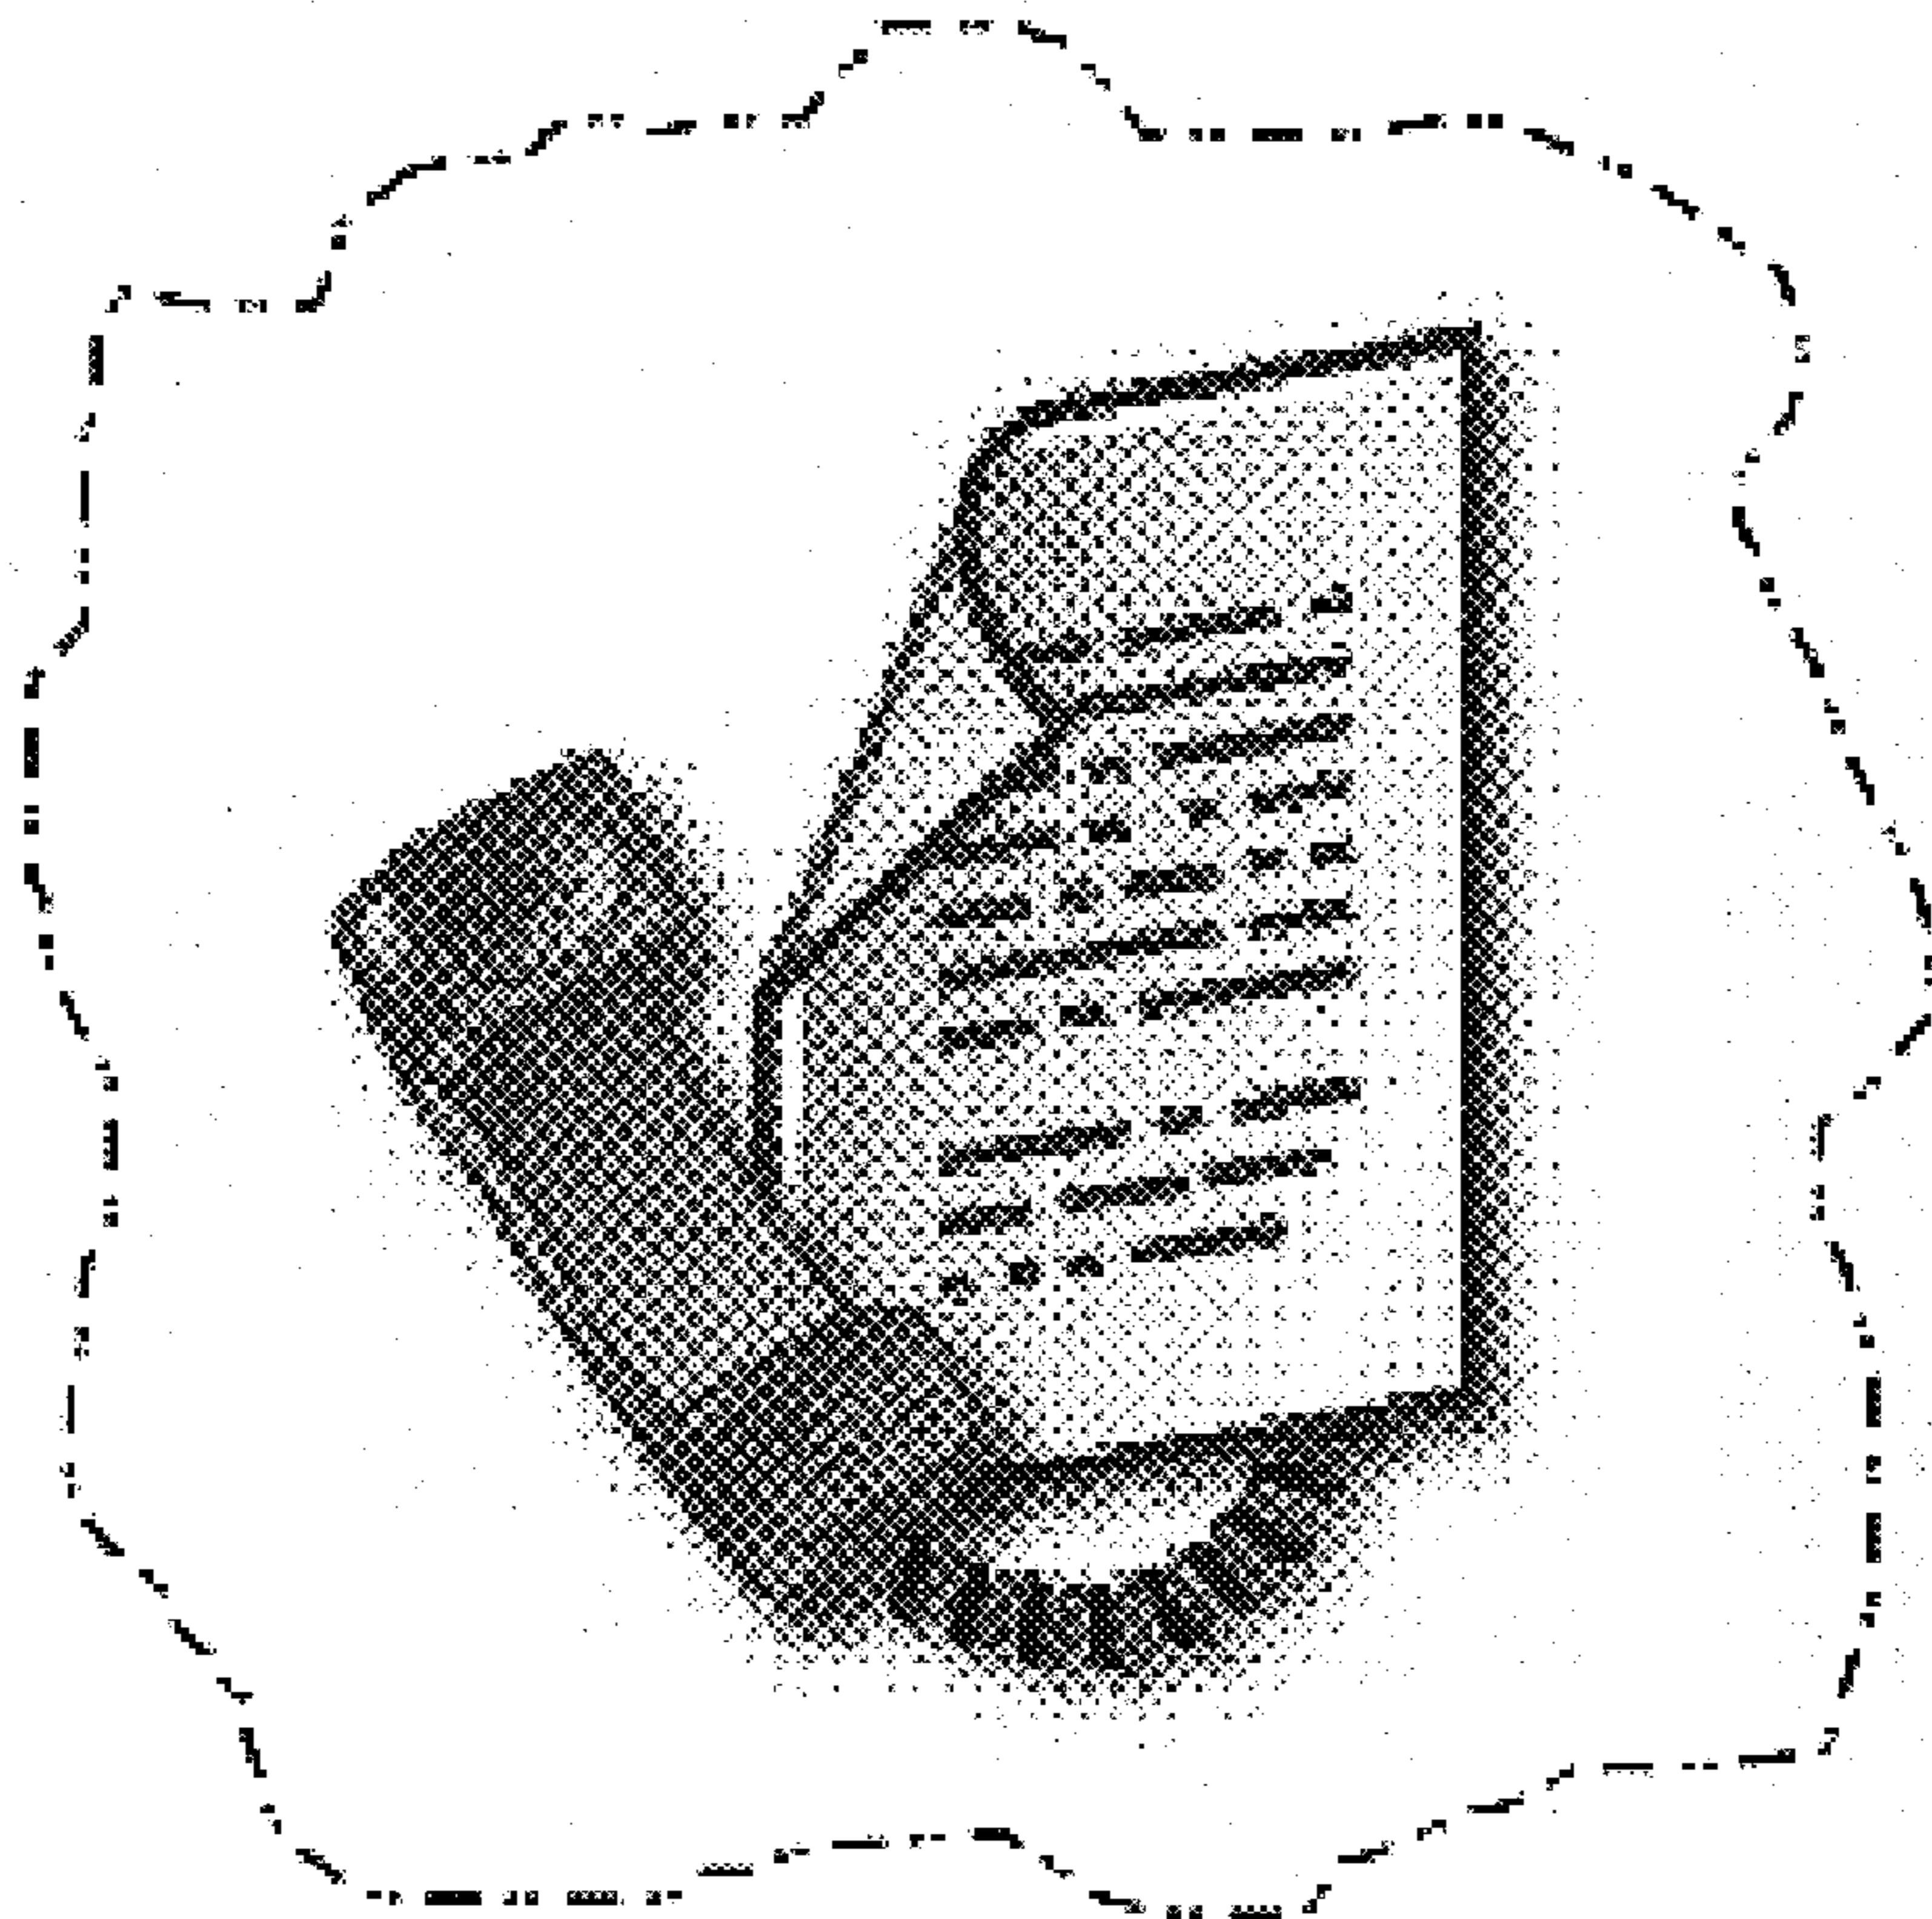

**DESCRIPTION**

The single FIGURE is a front view of a touch base user  
interface service selection icon for a portion of an image  
processing office machine of the present invention.

The broken line drawing of a portion of an image processing  
office machine is for illustrative purposes only and forms no  
part of the claimed design.
