(57) **CLAIM**

The ornamental design for an engine enclosure, as shown and described.

**DESCRIPTION**

FIG. 1 is a rear, left top perspective view of the engine enclosure in a closed position;  
FIG. 2 is a left elevational view of the engine enclosure in a closed position;  
FIG. 3 is a right elevational view of the engine enclosure in a closed position;  
FIG. 4 is a top plan view of the engine enclosure in a closed position;  
FIG. 5 is a rear elevational view of the engine enclosure in a closed position;  
FIG. 6 is a front elevational view, taken along Lines 6—6 of FIG. 2, of the engine enclosure in a closed position;  
FIG. 7 is a rear, left top perspective view of the engine enclosure in a fully opened position;  
FIG. 8 is a left elevational view of the engine enclosure in a fully opened position;  
FIG. 9 is a right elevational view of the engine enclosure in a fully opened position;  
FIG. 10 is a top plan view of the engine enclosure in a fully opened position;  
FIG. 11 is a rear elevational view of the engine enclosure in a fully opened position; and,  
FIG. 12 is a front elevational view, taken along Lines 12—12 of FIG. 8, of the engine enclosure in a fully opened position.

The broken line showing of the tractor is for illustrative purposes only and forms no part of the claimed design.
