(57) **CLAIM**

The ornamental design for a gaming device having a display with multiple indicators, as shown and described herein.

FIG. 1 is an enlarged front perspective view of the display having multiple indicators for a gaming device of my new design, the fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 2 is an enlarged front perspective view of an alternative embodiment of the display having multiple indicators for a gaming device of my new design, that fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 3 is an enlarged front perspective view of an alternative embodiment of the display having multiple indicators for a gaming device of my new design, that fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

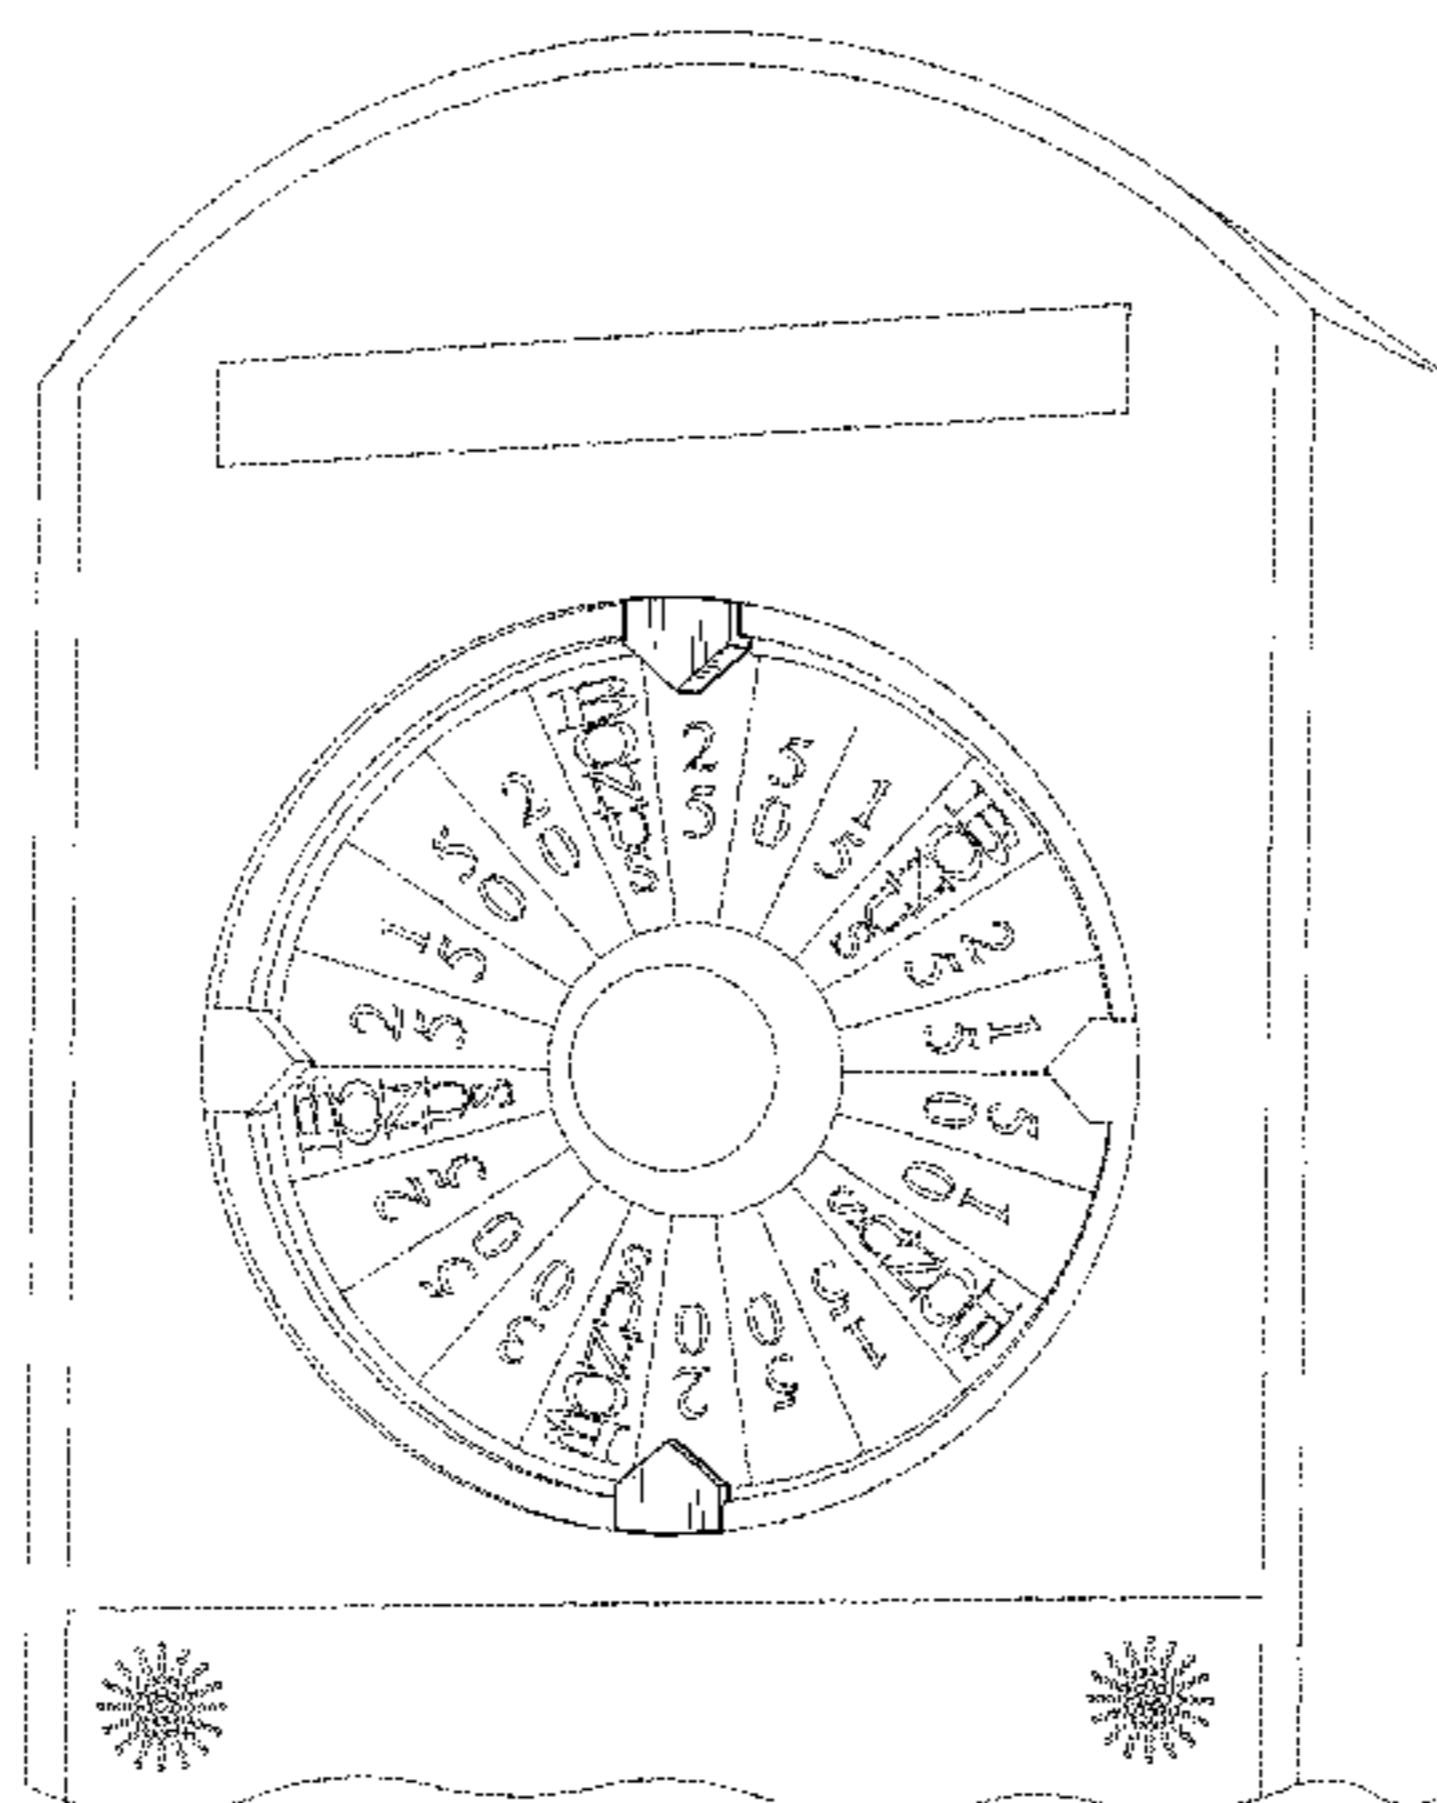

FIG. 4 is an enlarged front perspective view of one embodiment of the display having multiple indicators for a gaming device of my new design, that fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only;

FIG. 5 is an enlarged front perspective view of an alternative embodiment of the display having multiple indicators for a gaming device of my new design, that fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only; and,

FIG. 6 is an enlarged front perspective view of an alternative embodiment of the display having multiple indicators for a gaming device of my new design, that fragmentary portion of the gaming device shown in phantom is not part of the design sought to be patented and is provided for environmental purposes only.

This application is related to the following commonly-owned co-pending patent applications: “Gaming Device Having a Display With Multiple Indicators,” Ser. No. 29/221,732.
