(57) **CLAIM**

We claim the ornamental design for a behind-the-head mounted personal audio set, as shown and described.

DESCRIPTION

FIG. 1 is a front, left, perspective view of a behind-the-head mounted personal audio set showing our new design in a first possible orientation such that the audio set may be worn adjacent to a wearer's left ear;

FIG. 2 is a left, elevation view thereof;

FIG. 3 is a front, elevation view thereof;

FIG. 4 is a back, elevation view thereof;

FIG. 5 is a top plan view thereof;

FIG. 6 is a bottom plan view thereof; and,

FIG. 7 is a front, right, perspective view of the behind-the-head mounted personal audio set of FIG. 1 showing a second possible orientation such that the audio set may be worn adjacent to a wearer's right ear.

The broken lines showing a possible contour of a possible free end of the behind-the-head headband, the distal end of a boom microphone, vents, and possible surface contours of the headset portion are for illustrative purpose only and form no part of the claimed design.
