(57) **CLAIM**

The ornamental design for an automatic screwfeeder head, as shown and described.

DESCRIPTION

FIG. 1 is a side elevational view of an automatic screwfeeder head according to the present invention;
FIG. 2 is an opposite side elevational view of the present invention;
FIG. 3 is a top elevational view of the present invention;
FIG. 4 is a bottom elevational view of the present invention;
FIG. 5 is a front elevational view of the present invention; and,
FIG. 6 is a rear elevational view of the present invention.
All broken lines form no part of the claimed design.
