(57) **CLAIM**

The ornamental design for a swaddling sleeper, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view showing my new design for a swaddling sleeper;

FIG. 2 is a perspective view of my sleeper with the swaddling wing portion outwardly extended;

FIG. 3 is a front elevational view of my sleeper with the swaddling wing outwardly extended;

FIG. 4 is an elevational view of the back member of my sleeper;

FIG. 5 is a side view of my sleeper looking from the right with respect to FIG. 3;

FIG. 6 is a side view of my sleeper looking from the left with respect to FIG. 3;

FIG. 7 is a top plan view thereof;

FIG. 8 is a bottom plan view thereof;

FIG. 9 is a front elevational view of my sleeper with the front zipper in open position allowing the insertion of an infant into the sleeper;

FIG. 10 is a view similar to FIG. 9 with the zipper in closed position;

FIG. 11 is a front elevational view showing the swaddling wing after it has been extended across the front of the baby;

FIG. 12 is a view similar to FIG. 11 but with the swaddling wing in its fully operative position; and,

FIG. 13 is a rear elevational view of my sleeper with the swaddling wing in its fully operative position.

The portions shown in broken lines in FIGS. 1, 9, 10, 11, 12 and 13 are for illustration only and form no part of the claimed design.
