(57) **CLAIM**

The ornamental design for a wall-mountable control panel, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a wall-mountable control panel showing a first embodiment of our new design.

FIG. 2 is a front elevation view thereof.

FIG. 3 is a bottom view thereof.

FIG. 4 is a top view thereof.

FIG. 5 is a left side view thereof.

FIG. 6 is a right side view thereof.

FIG. 7 is a front perspective view of a wall-mountable control panel according to a second embodiment of our new design.

FIG. 8 is a front elevation view thereof, the bottom, top, left side, and right side views being identical to those of the first embodiment.

FIG. 9 is a front perspective view of a wall-mountable control panel according to a third embodiment of our new design.

FIG. 10 is a front elevation view thereof, the bottom, top, left side, and right side views being identical to those of the first embodiment.

FIG. 11 is a front perspective view of a wall-mountable control panel according to a fourth embodiment of our new design.

FIG. 12 is a front elevation view thereof, the bottom, top, left side, and right side views being identical to those of the first embodiment.

FIG. 13 is a front perspective view of a wall-mountable control panel according to a fifth embodiment of our new design; and,

FIG. 14 is a front elevation view thereof, the bottom, top, left side, and right side views being identical to those of the first embodiment.

The portions of the drawings appearing in broken line are for environment only and do not form a part of the design.
