(57) **CLAIM**

We claim the ornamental design for a light emitting diode module, as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a light emitting diode module of the present invention;
FIG. 2 is a top view thereof;
FIG. 3 is a side view, the opposite side being a mirror image thereof; and,
FIG. 4 is another side view, the opposite side being a mirror image thereof.

The bottom view of the light emitting diode module of the present invention is flat and unornamented.

Any broken lines in the drawings are for illustrative purposes only and form no part of the claimed design.
