(57) **CLAIM**

The ornamental design for a support assembly for a ceiling fan blade, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevational view of a support assembly for a ceiling fan blade showing our new design;

FIG. 2 is a rear elevational view showing the design for the support assembly for a ceiling fan blade of FIG. 1;

FIG. 3 is a left side elevational view showing the design for the support assembly for a ceiling fan blade of FIG. 1;

FIG. 4 is a right side elevational view showing the design for the support assembly for a ceiling fan blade of FIG. 1;

FIG. 5 is a top elevational view showing the design for the support assembly for a ceiling fan blade of FIG. 1;

FIG. 6 is a perspective view showing the design for the support assembly for a ceiling fan blade of FIG. 1; and,

FIG. 7 is another perspective view showing the design for the support assembly for a ceiling fan blade of FIG. 1 in one typical use environment.

In FIGS. 1–7, the broken line showing of various items including (i) the ceiling mounting plate, (ii) various detail on the pivoting central member, (iii) the interface lines between the front half of the outer member and the back half of the outer member (FIGS. 3–7), (iv) the ceiling fan blade (FIG. 7), and (v) the push rod and associated mounting hardware including the bolt and nut (FIG. 7) is for illustrative purposes only and forms no part of the claimed design.
