(57) **CLAIM**

The ornamental design for a manual dishwashing spray head with interchangeable brushes, as shown and described.

DESCRIPTION

The present invention relates to a design for a manually operable dishwashing spray head attachable to a kitchen sink hose for dispensing water and/or soap.

FIG. 1 is a perspective view of the spray head and first brush assembly as seen from the front left.

FIG. 2 is a side view corresponding to FIG. 1.

FIG. 3 is a rear view corresponding to FIG. 1.

FIG. 4 is a perspective view from the right rear corresponding to FIG. 1.

FIG. 5 is a perspective view of the spray head and second brush assembly as seen from the front left.

FIG. 6 is a side view corresponding to FIG. 5.

FIG. 7 is a rear view corresponding to FIG. 5.

FIG. 8 is a perspective view from the right rear corresponding to FIG. 5.

FIG. 9 is a perspective view of the spray head and third brush assembly as seen from the front left.

FIG. 10 is a side view corresponding to FIG. 9.

FIG. 11 is a rear view corresponding to FIG. 9.

FIG. 12 is a perspective view from the right rear corresponding to FIG. 9.

FIG. 13 is a perspective view of the spray head and fourth brush assembly as seen from the front left.

FIG. 14 is a side view corresponding to FIG. 13.

FIG. 15 is a rear view corresponding to FIG. 13.

FIG. 16 is a perspective view from the right rear corresponding to FIG. 13.

FIG. 17 is a perspective view of the spray head and fifth brush assembly as seen from the front left.

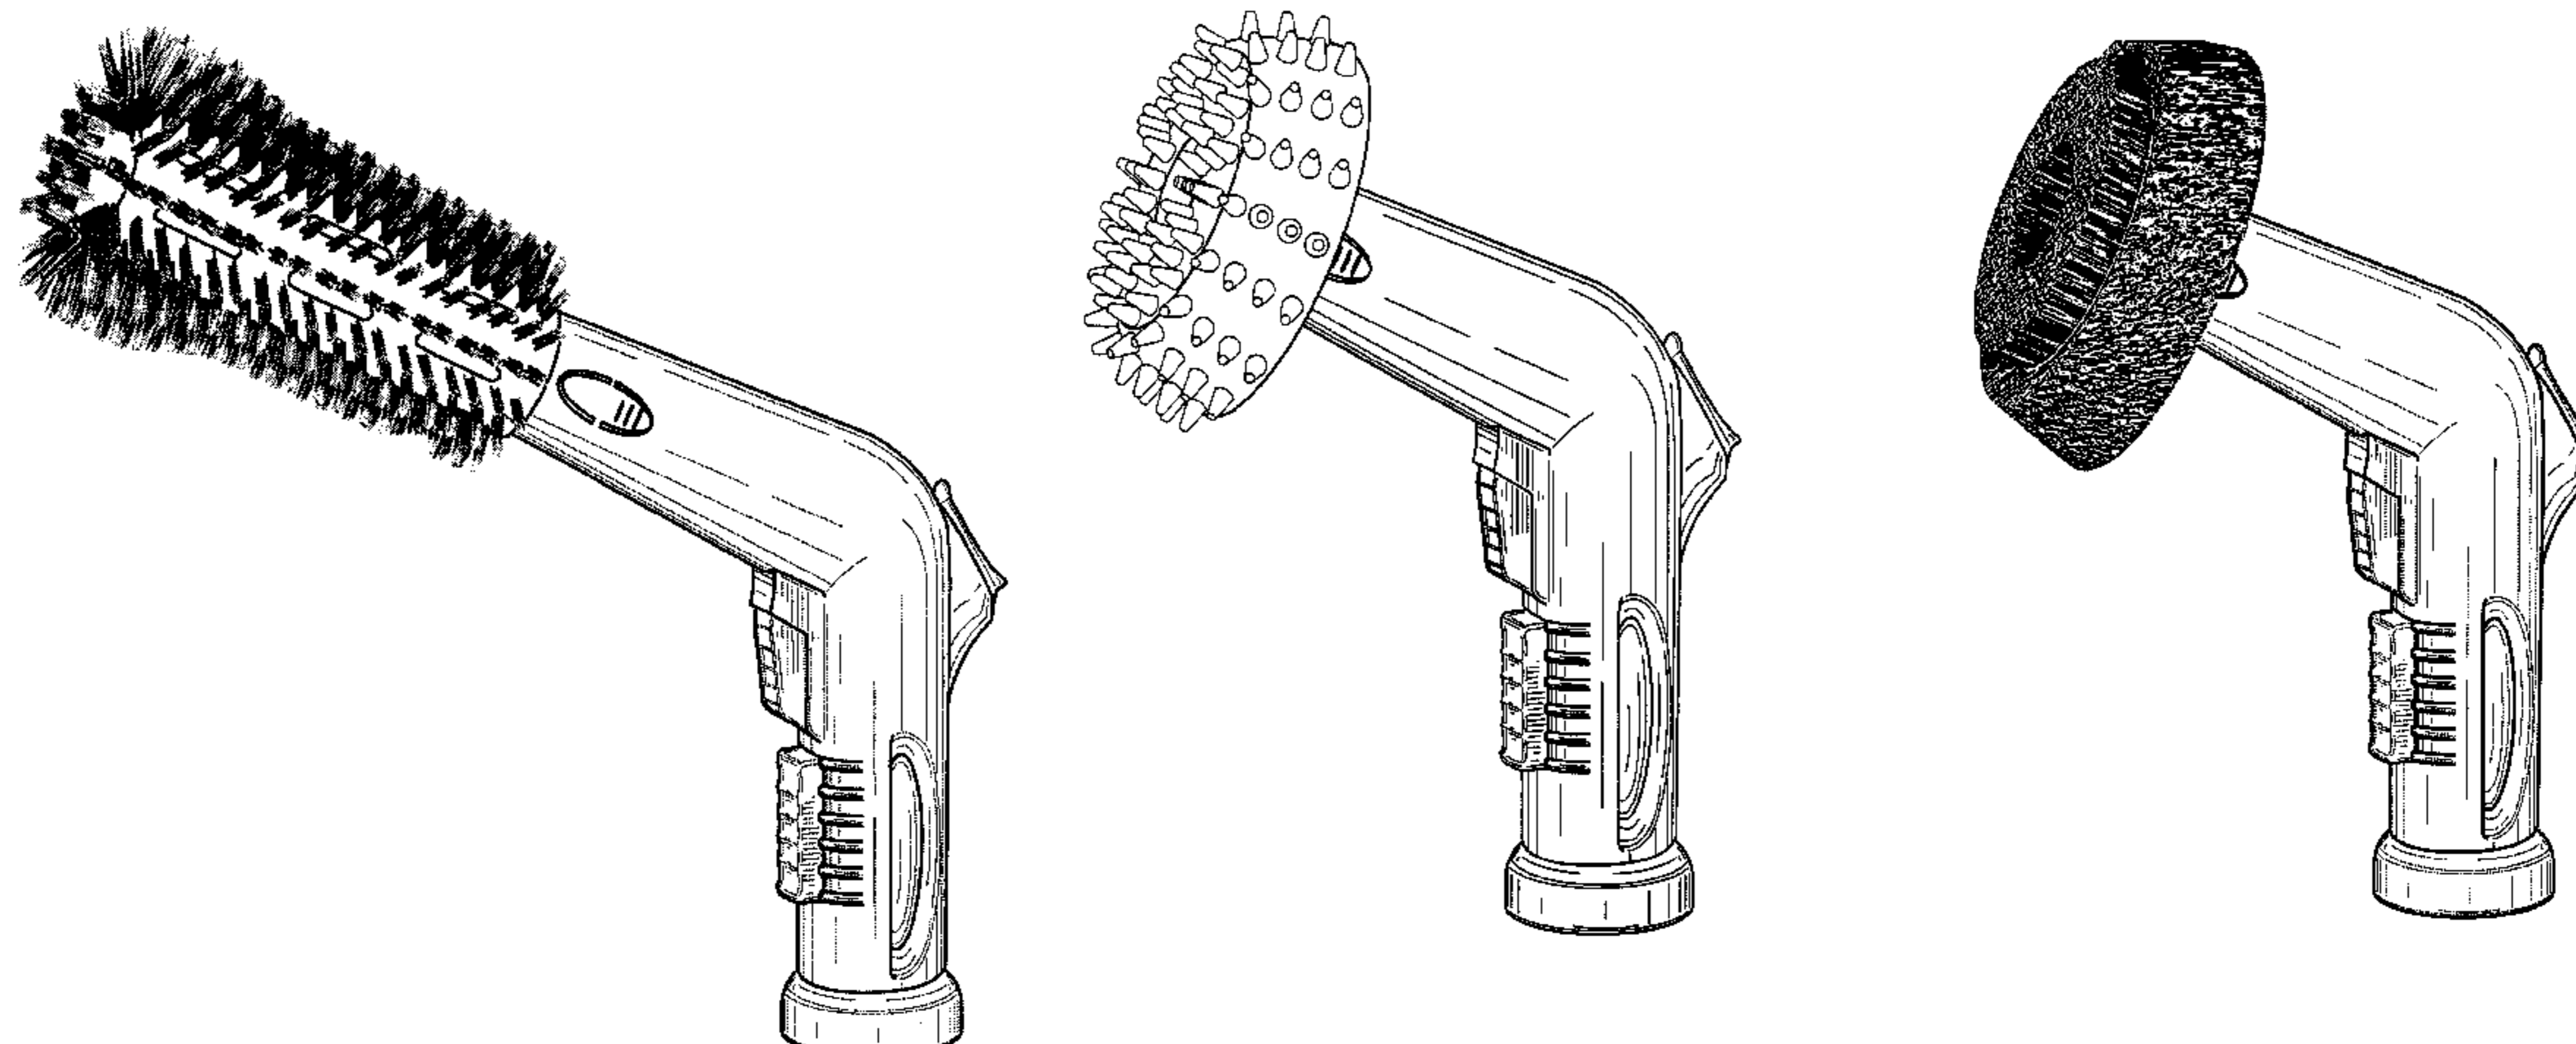

FIG. 18 is a side view corresponding to FIG. 17.

FIG. 19 is a rear view corresponding to FIG. 17; and,

FIG. 20 is a perspective view from the right rear corresponding to FIG. 17.

In the device as shown, views from the right side are mirror images of the corresponding views from the left side and vice versa.
