(57) **CLAIM**

The ornamental design for a seat, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a first embodiment of a seat showing our new design;

FIG. 2 is an enlarged front elevational view thereof;

FIG. 3 is an enlarged fragmented perspective view of the arm section thereof;

FIG. 4 is an enlarged side elevational view, the opposite side being a mirror image thereof;

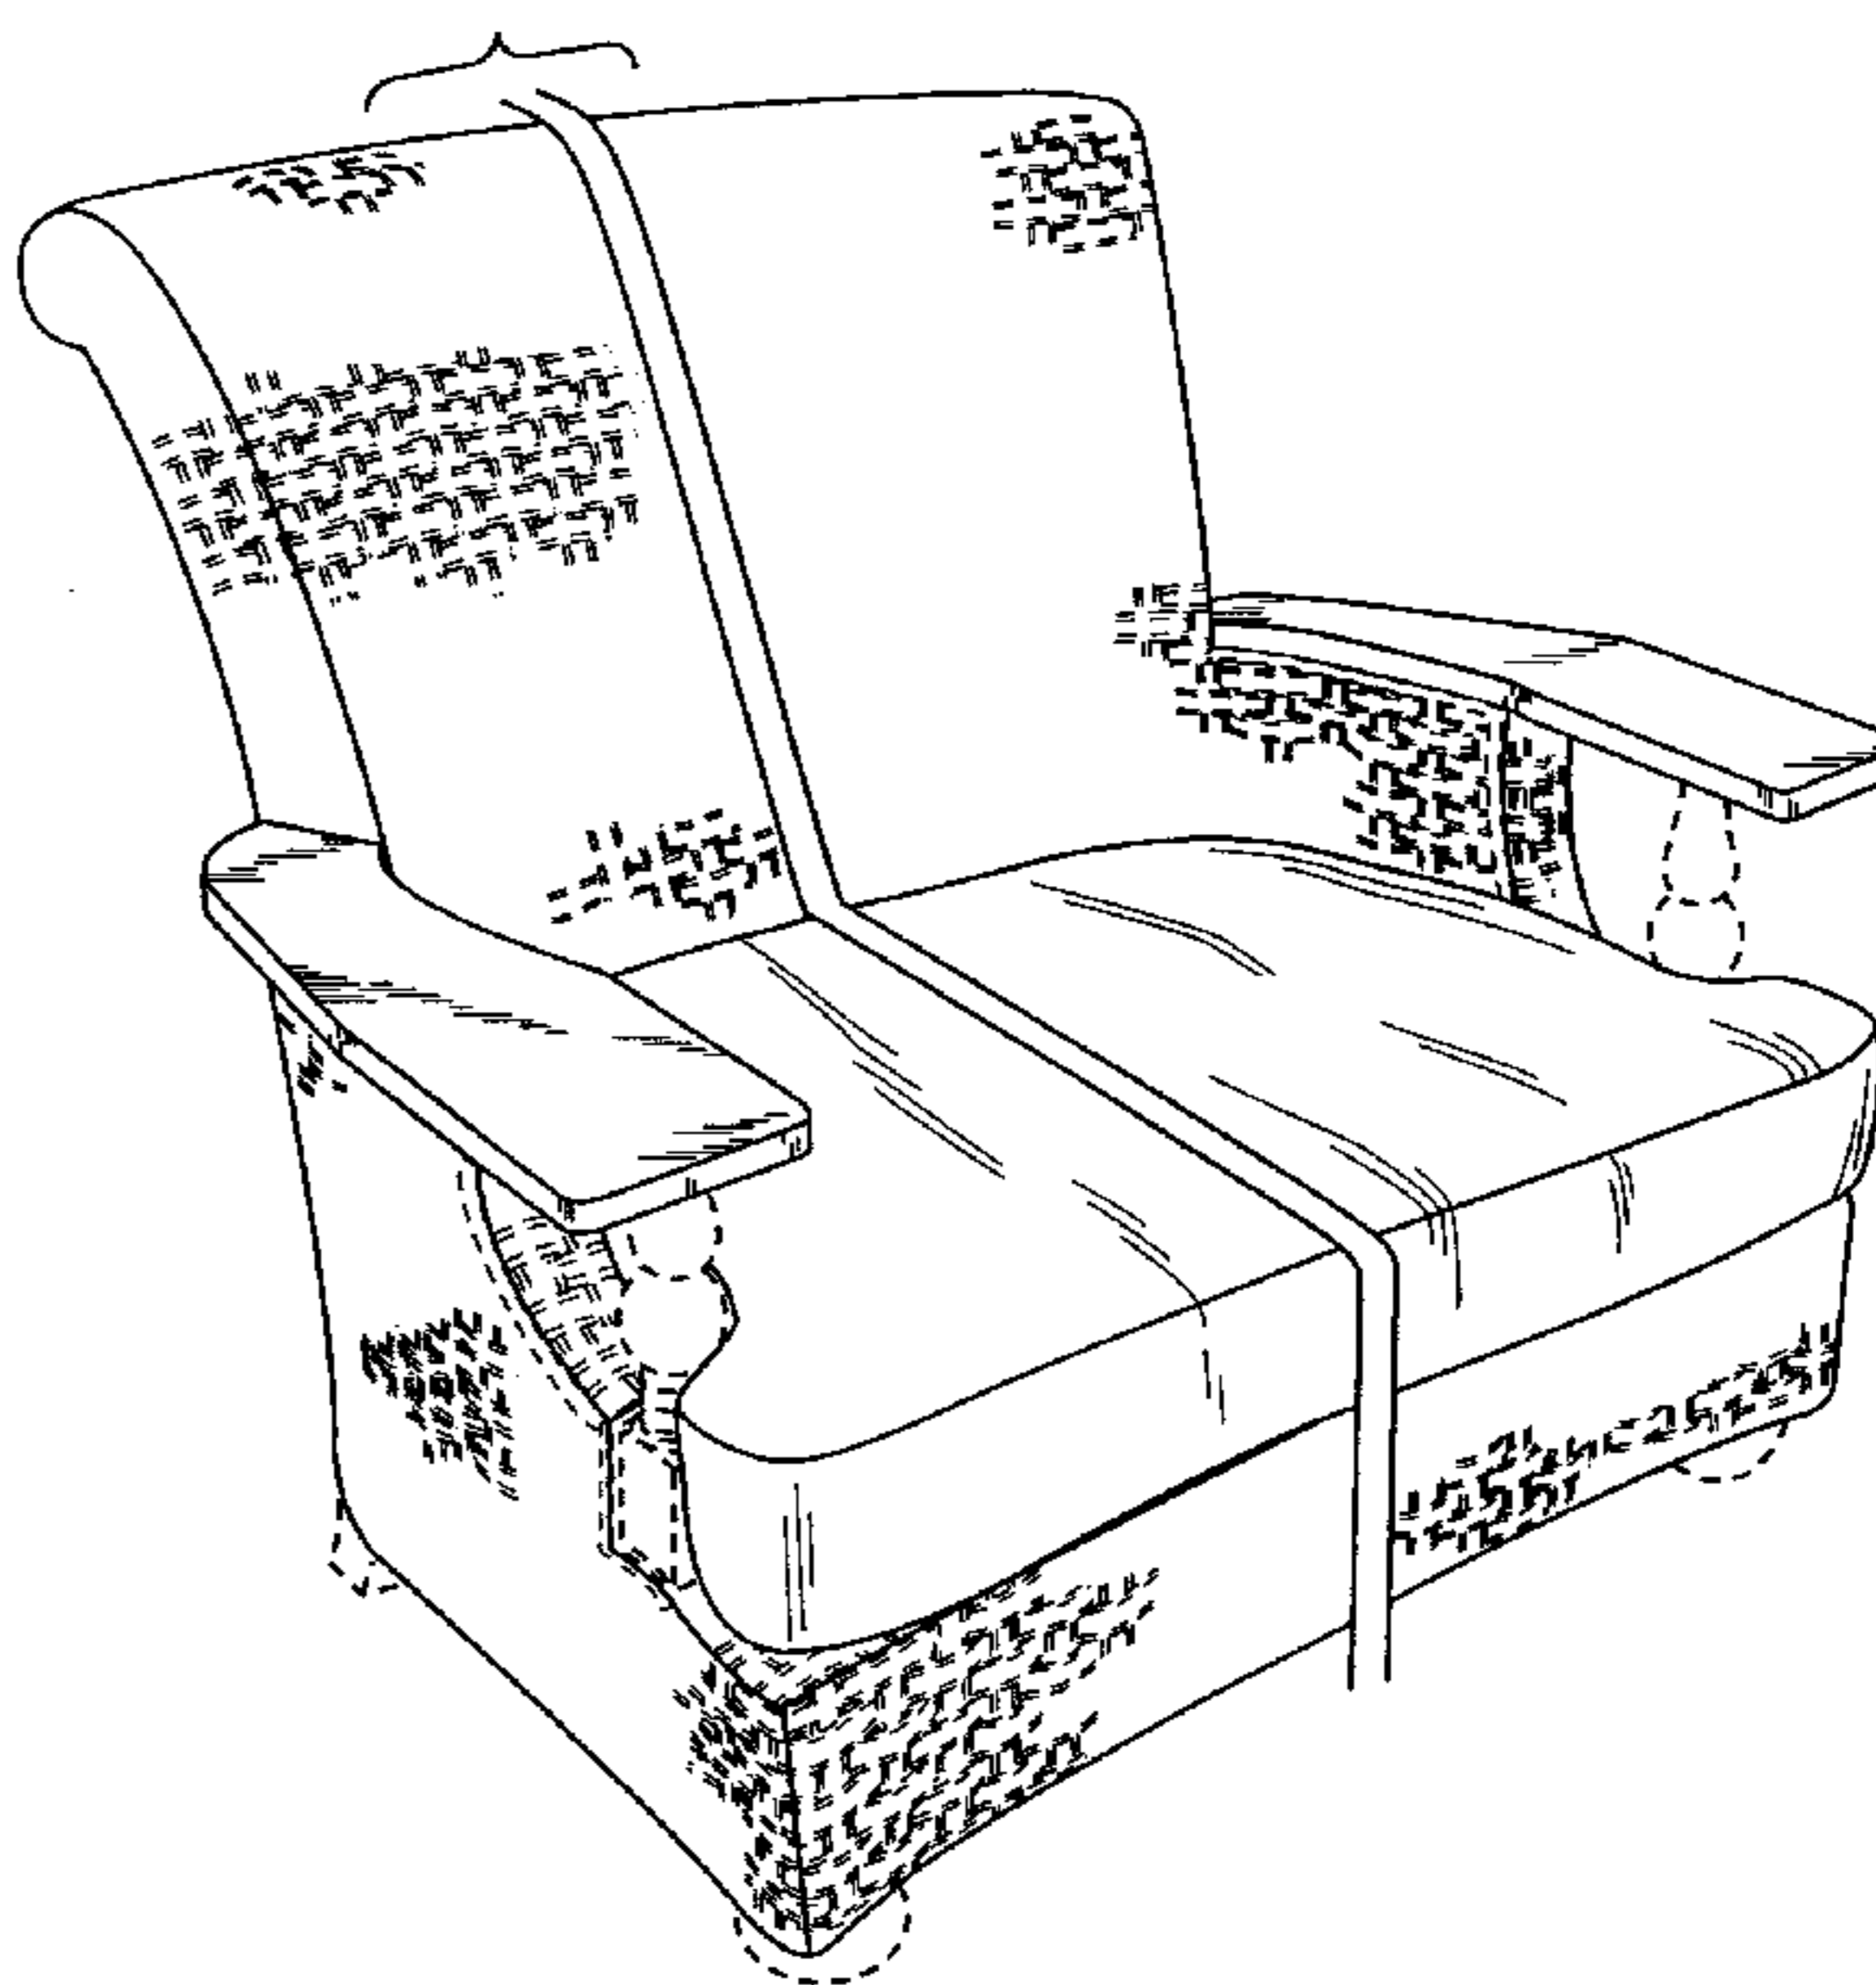

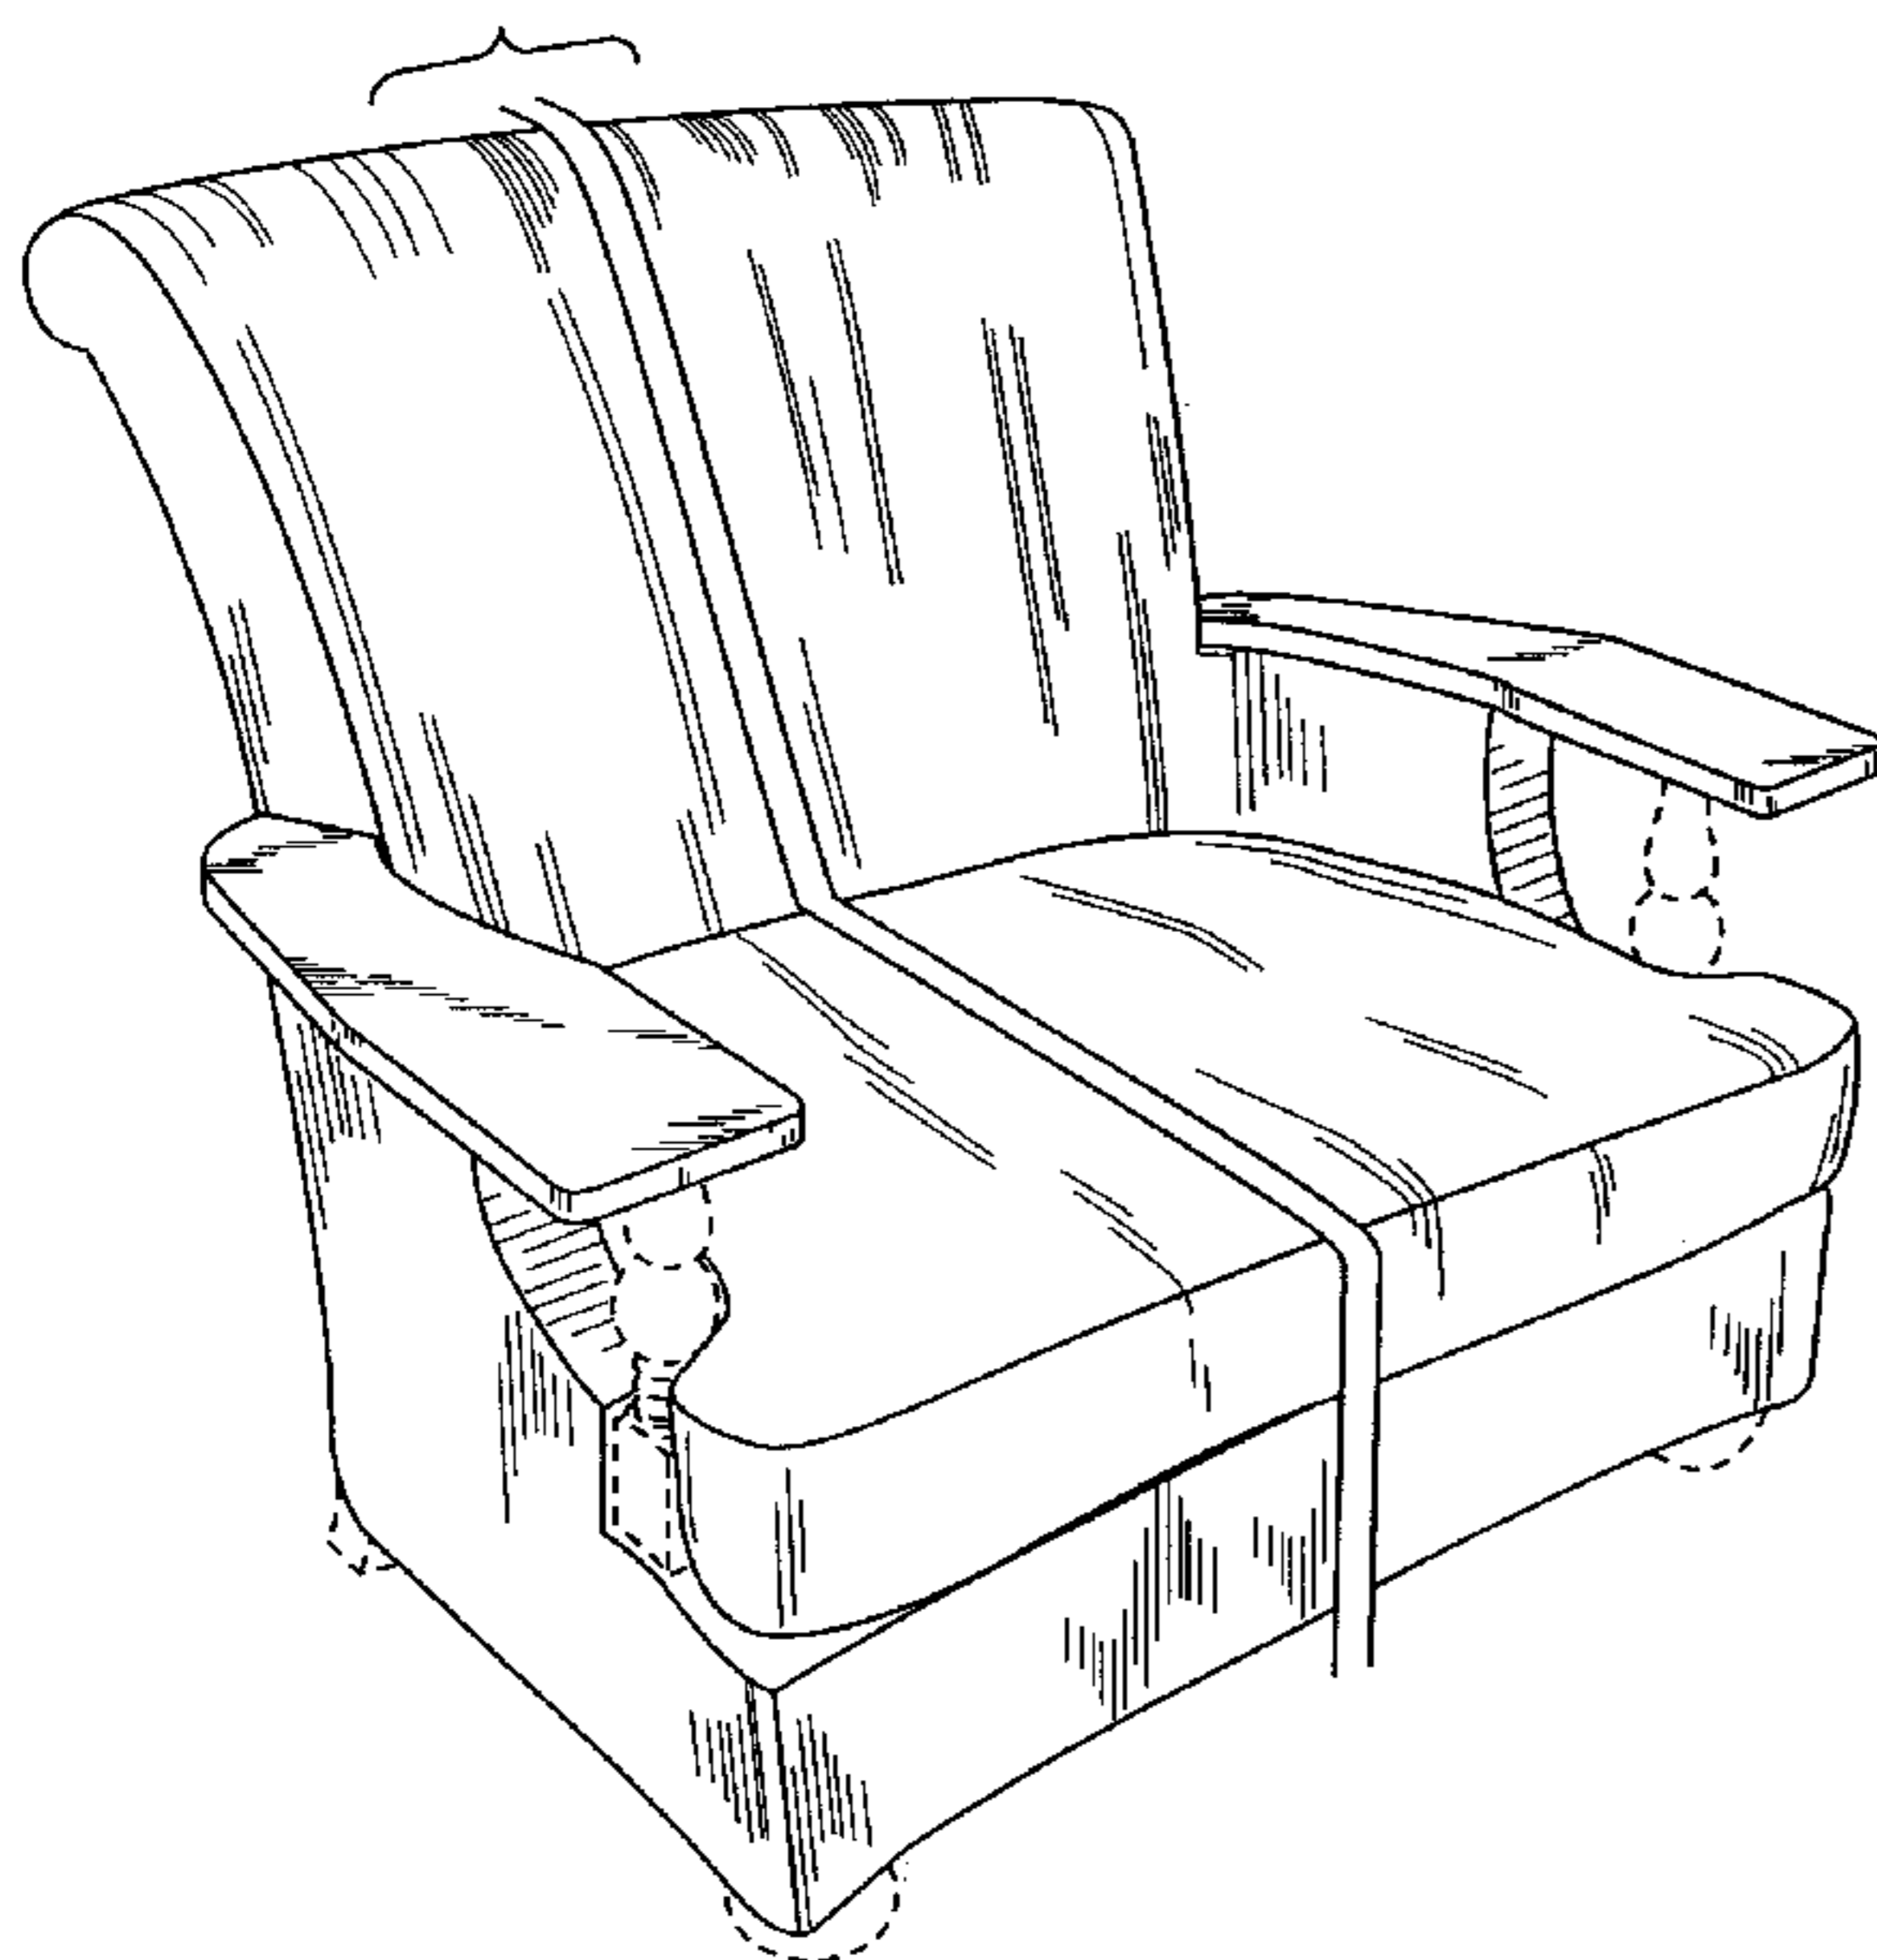

FIG. 5 is an enlarged rear elevational view thereof; and,

FIG. 6 is a perspective view of a second embodiment of a seat showing our new design, the only difference being the upholstery fabric.

The fragmented cross-hatching shown in FIG. 6 is understood to represent fabric and would be continuous throughout the circumscribed areas.

The views of the seat not shown form no part of the claimed design. The broken lines depicting arm supports, feet represent environmental elements only and form no part of the claimed design. The separation and bracket indicate, for ease of illustration, that the precise width of the seat is not claimed.
