(57) **CLAIM**

The ornamental design for a portable language translator, as shown and described.

DESCRIPTION

A portable language translator with two pieces: one shaped like a cellular phone, and the other shape like a wristwatch, with an ear peice attachment. The front of the cellular phone shaped translator has an LCD screen that displays both the spoken language being translated with the appropriate written language translation in the chosen language underneath. FIG. 1 is a frontal view of my design illustrating the display screens and function keys as well as the earphone attachment;

FIG. 2 is a rear perspective view thereof;

FIG. 3 is a side perspective view;

FIG. 4 is a side view from the opposite side;

FIG. 5 is a top plan view thereof; and,

FIG. 6 is a bottom plan view thereof.

The broken away portions shown in FIGS. 1-4 indicate indeterminate length.
