(57) **CLAIM**

The ornamental design for bond pattern for a disposable fibrous nonwoven material, as shown and described.

DESCRIPTION

FIG. 1 is a top plan view of a bond pattern for a disposable fibrous nonwoven material, showing our new design; and, FIG. 2 is a sectional view of the bond pattern for disposable fibrous nonwoven material of FIG. 1 taken along line 2—2 thereof.

The broken lines along the borders in FIGS. 1 and 2 depict the boundaries of one repeat unit of the claimed design, and indicate that the claimed design repeats uniformly throughout the length and width of the disposable fibrous nonwoven material, which is understood to extend indeterminately in one or more directions. The broken lines in the drawings are for illustrative purposes only and do not form a part of the claimed design.

The bond pattern can be on either a single-ply or a multi-ply disposable fibrous nonwoven material.
