(57) **CLAIM**

The design for a hinge connector assembly, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the top, front and right side of a preferred embodiment of the hinge connector assembly with a portion in dotted lines, representing the earpiece and lens frame, shown for environmental purposes only;

FIG. 2 is a perspective view of the top, front and left side of the hinge connector assembly shown in FIG. 1

FIG. 3 is a top view thereof with the bottom view being a mirror image;

FIG. 4 is a view of the left side thereof;

FIG. 5 is a front view thereof;

FIG. 6 is the back view thereof;

FIG. 7 is a view of the right side thereof;

FIG. 8 is a perspective view of the top, front and right side of another preferred embodiment of the hinge connector assembly with a portion in dotted lines, representing the earpiece and lens frame, shown for environmental purposes only;

FIG. 9 is a perspective view of the top, front and left side of the hinge connector assembly shown in FIG. 8

FIG. 10 is a top view thereof with the bottom view being a mirror image;

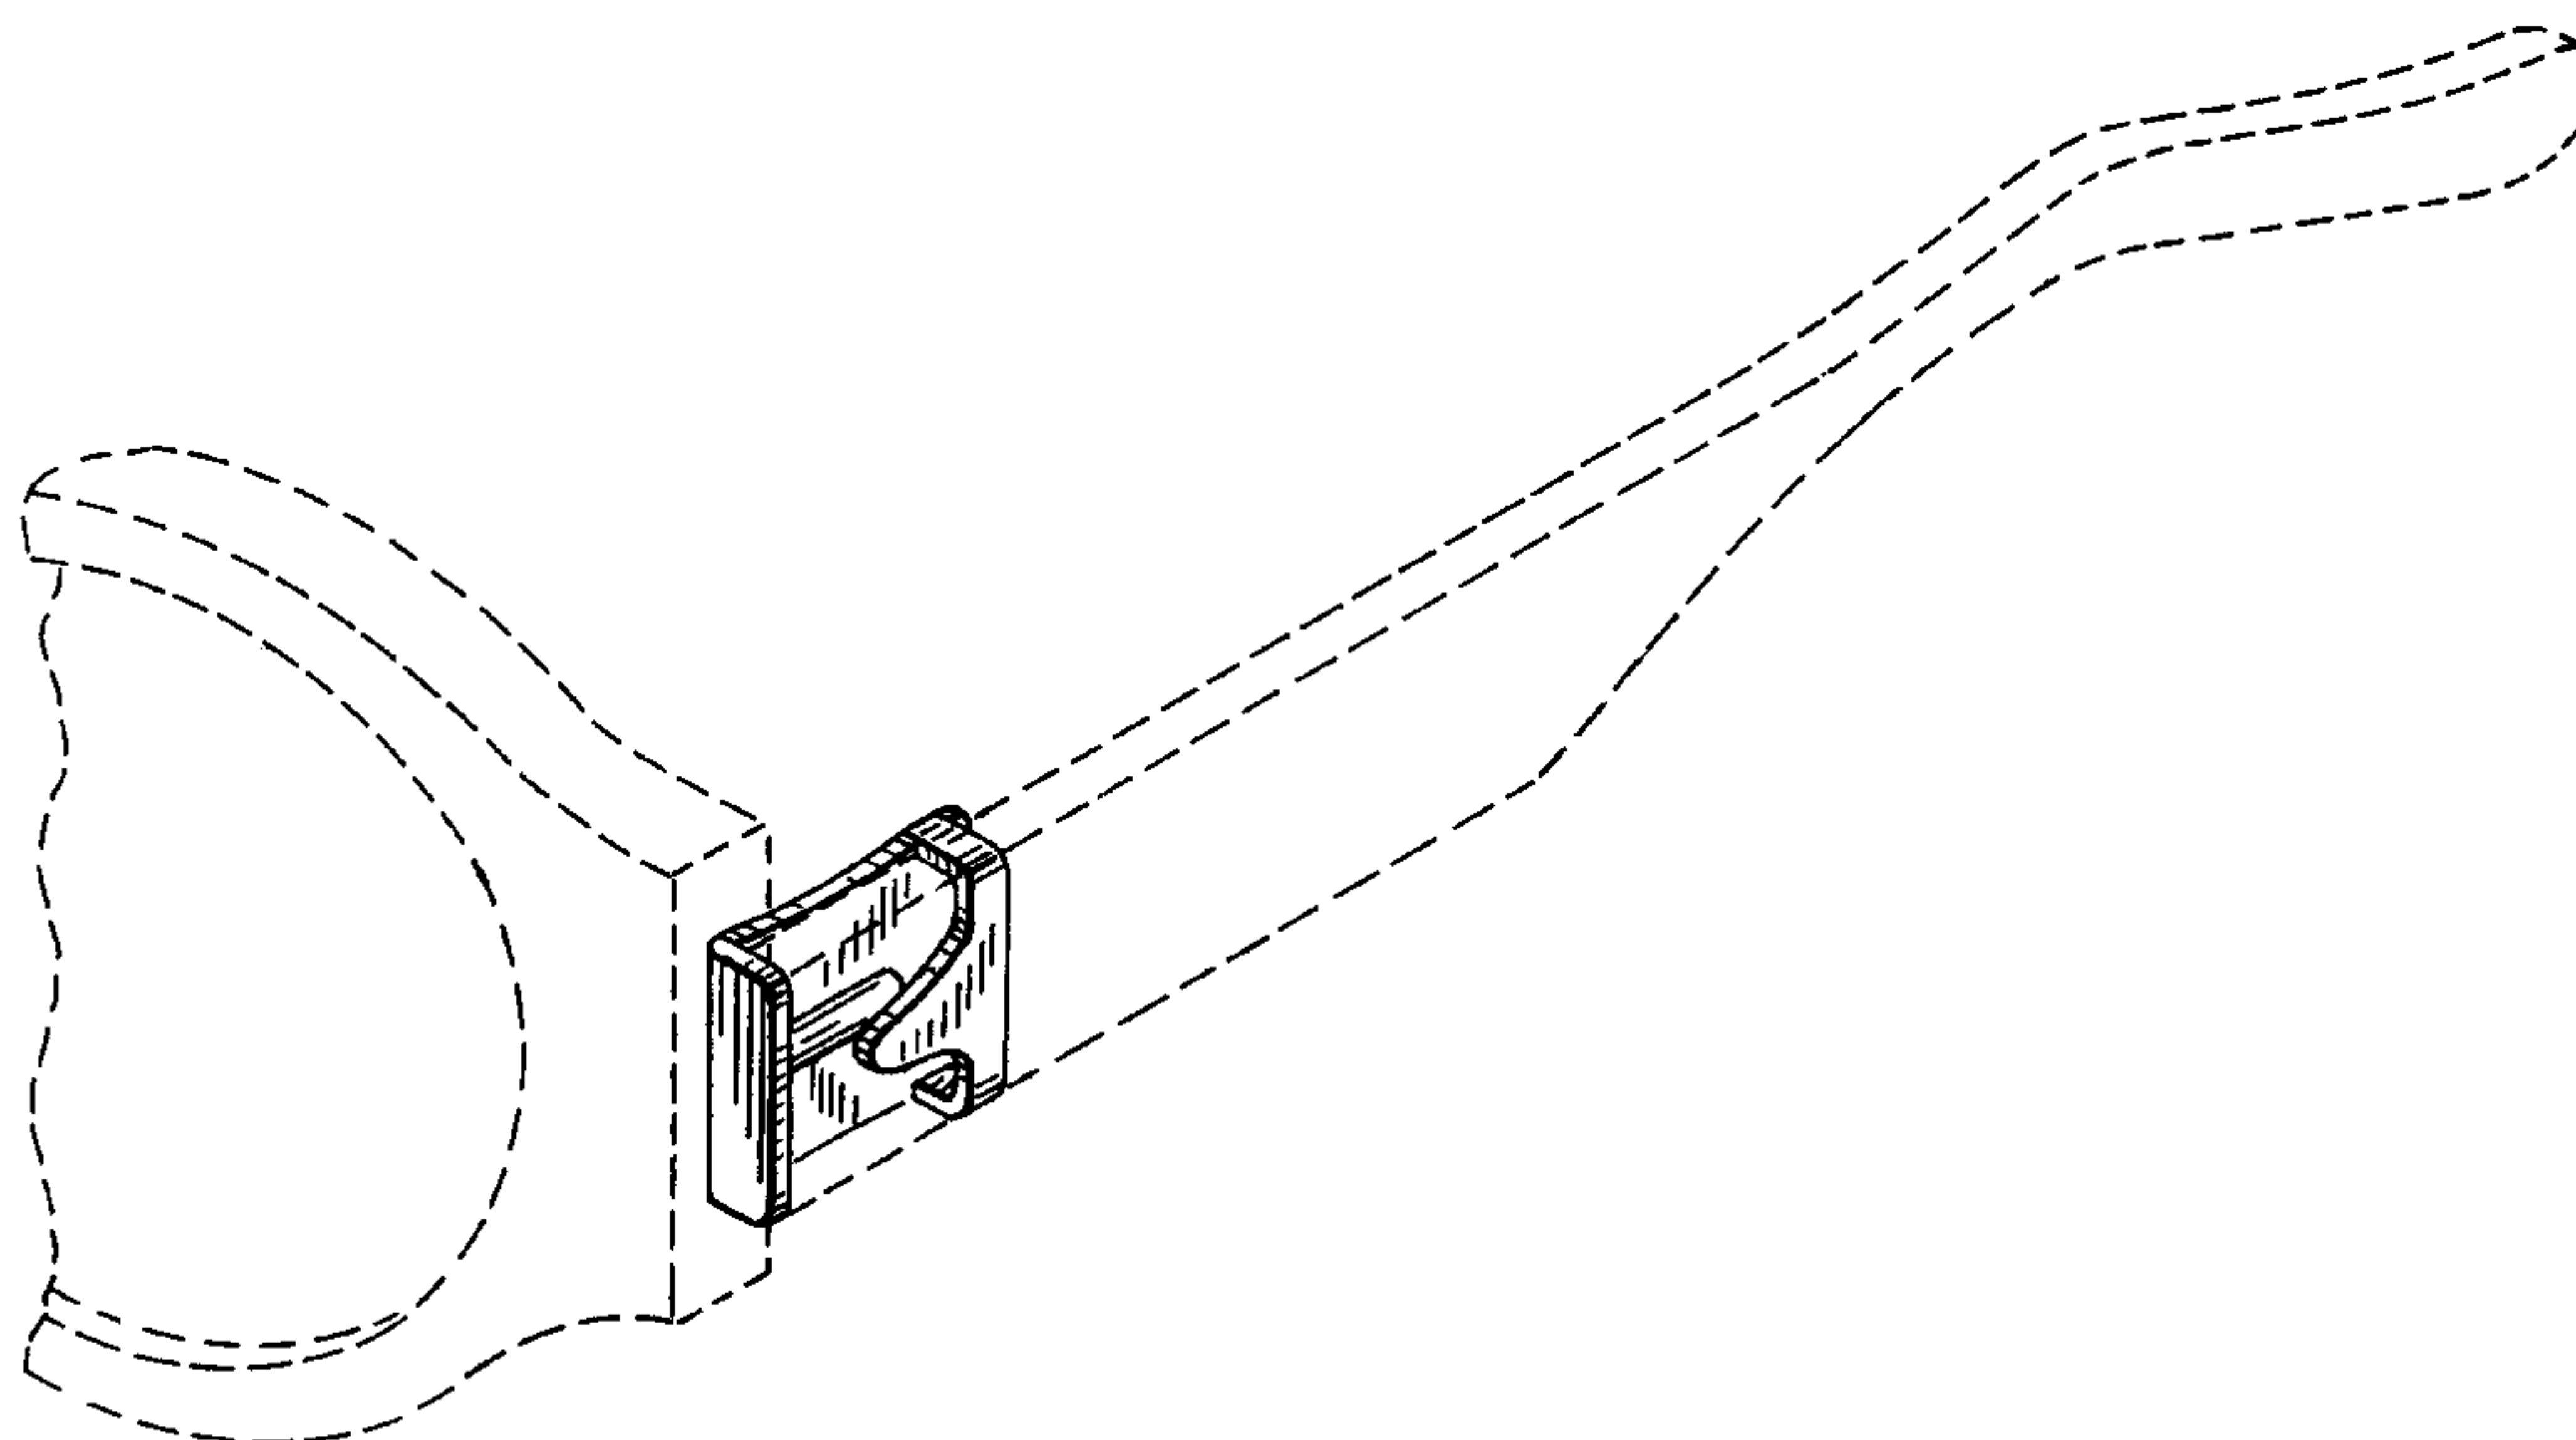

FIG. 11 is a view of the left side thereof;

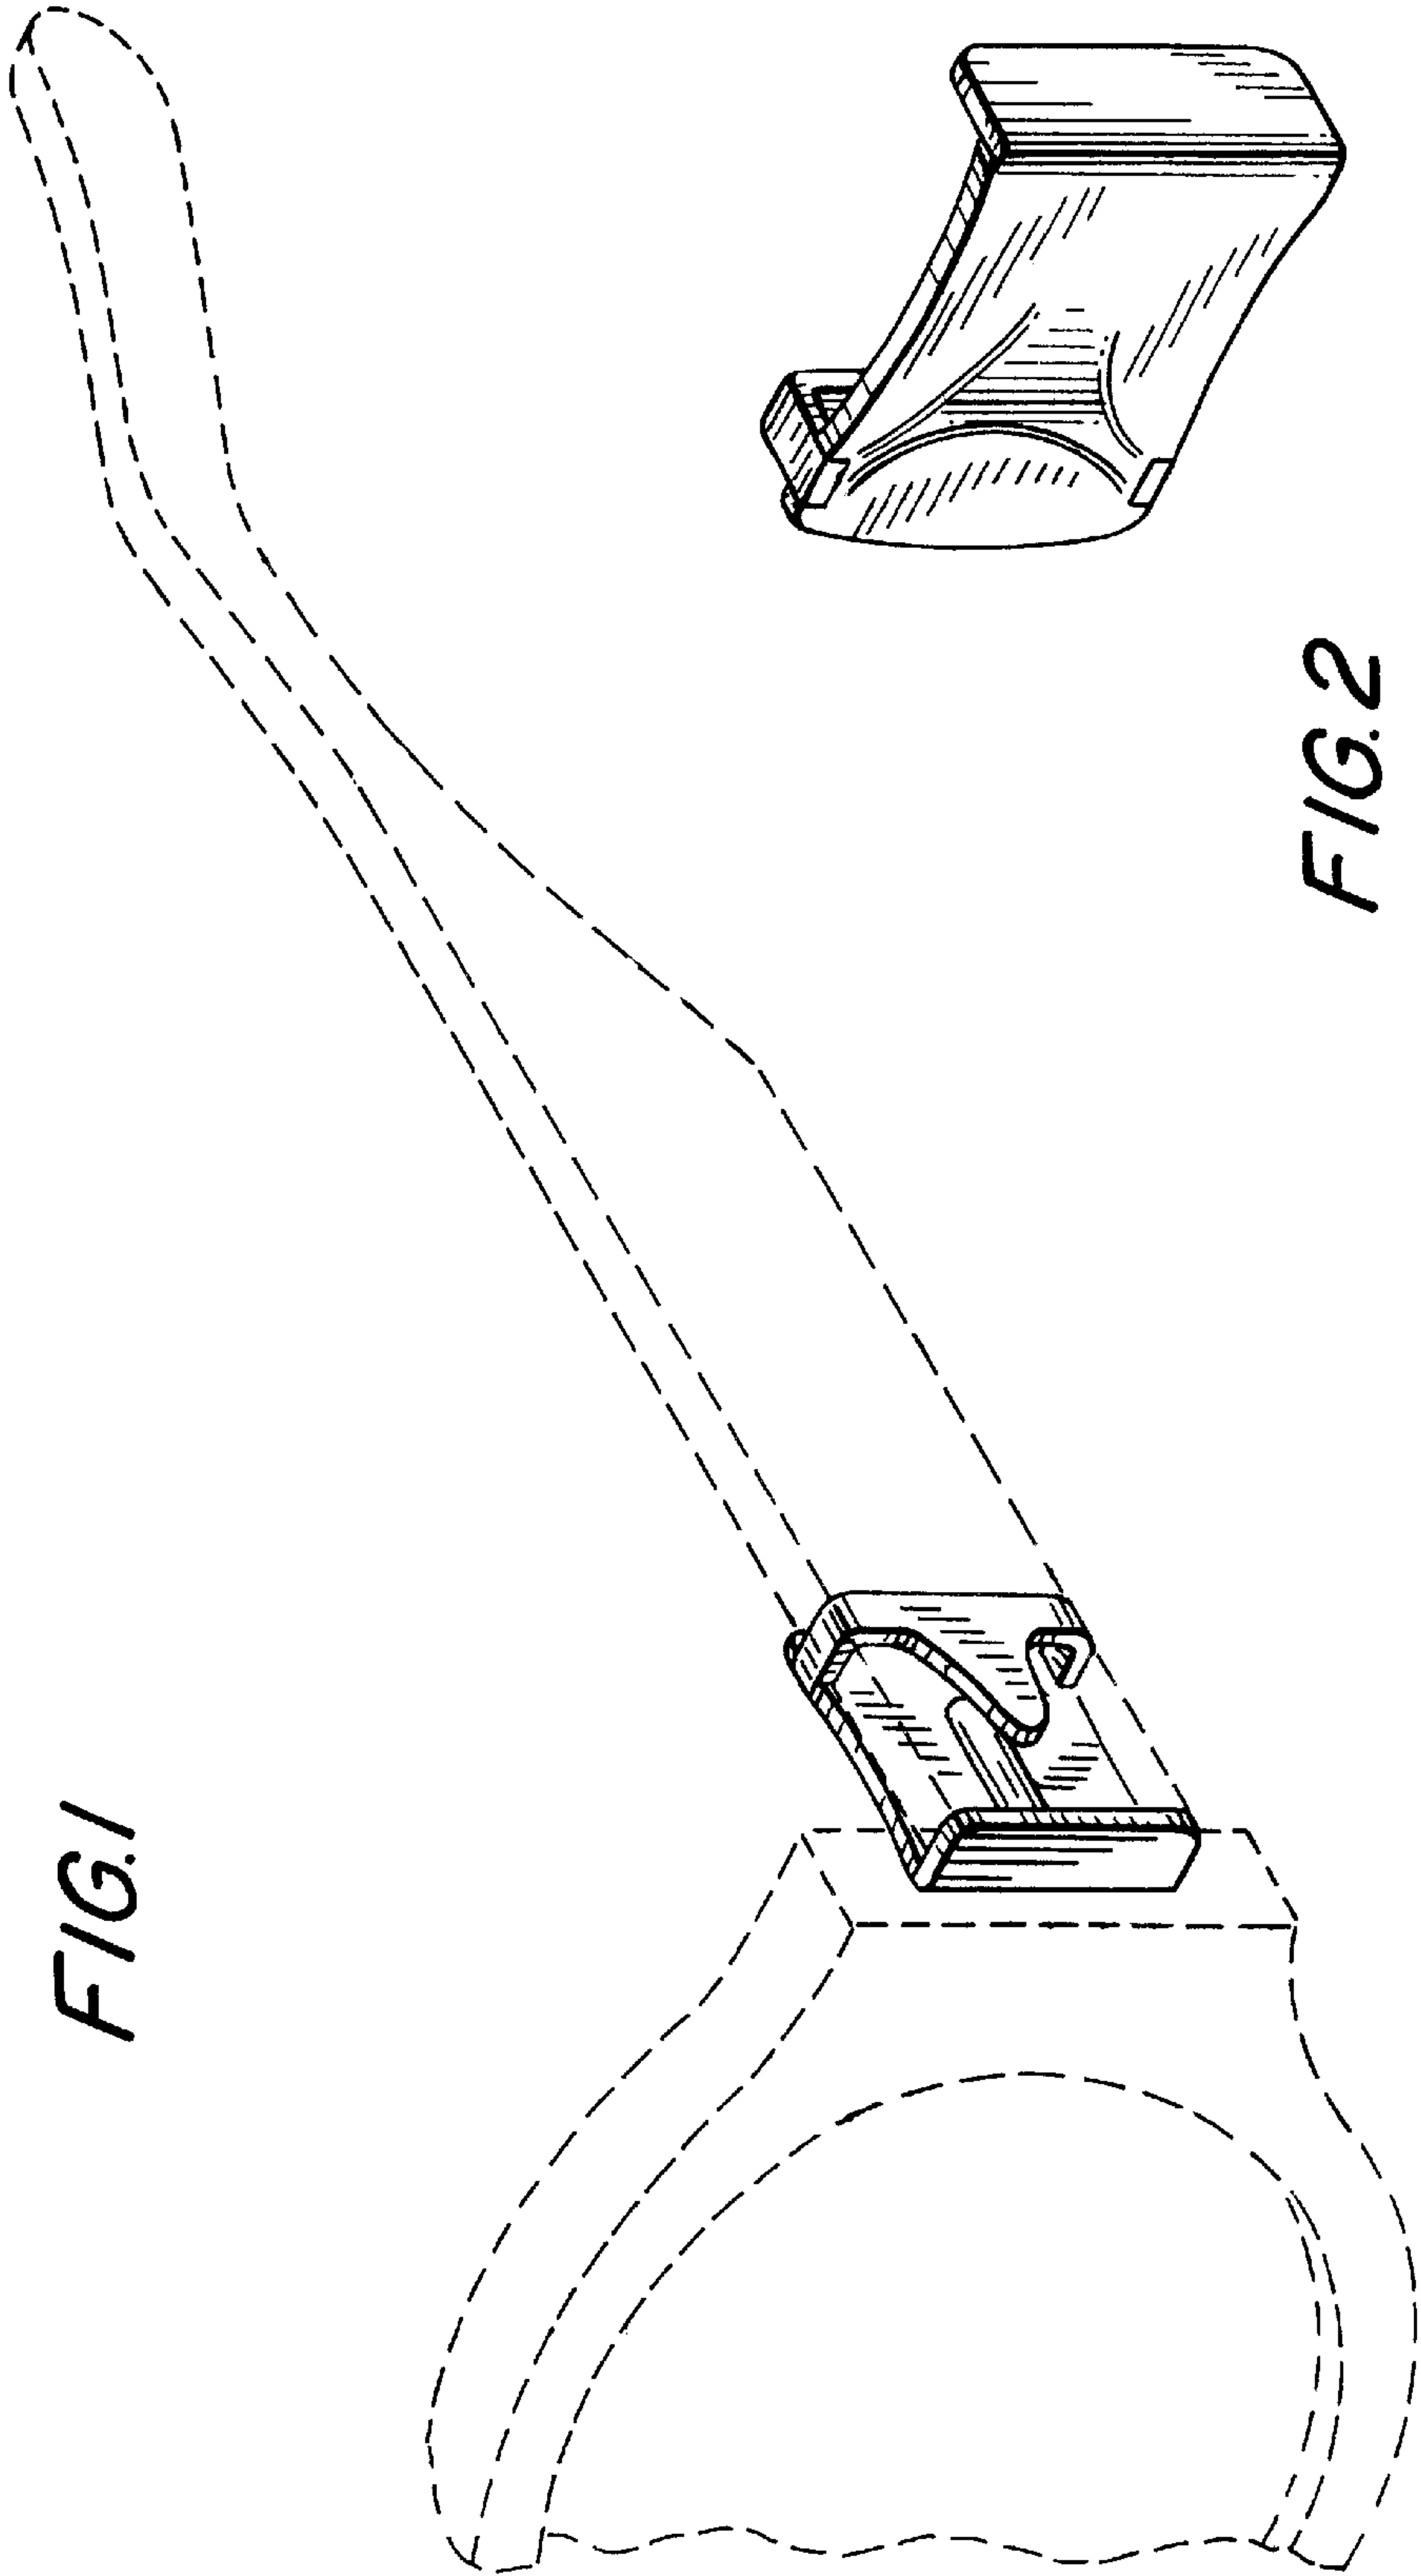

FIG. 12 is a front view thereof;

FIG. 13 is a back view thereof; and,

FIG. 14 is a view of the right side thereof.
