(57) **CLAIM**

The ornamental design for a surgical support, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a preferred embodiment of the surgical support according to the present design;

FIG. 2 is a front elevational view of the surgical support of FIG. 1;

FIG. 3 is a left-side elevational view of the surgical support of FIG. 1, the right-side elevational view being a mirror image thereof;

FIG. 4 is a top plan view of the surgical support of FIG. 1; FIG. 5 is a front perspective view of another preferred embodiment of the surgical support according to the present design;

FIG. 6 is a front elevational view of the surgical support of FIG. 5;

FIG. 7 is a left-side elevational view of the surgical support of FIG. 5, the right-side elevational view being a mirror image thereof;

FIG. 8 is a top plan view of the surgical support of FIG. 5;

FIG. 9 is a front perspective view of another preferred embodiment of the surgical support according to the present design;

FIG. 10 is a front elevational view of the surgical support of FIG. 9;

FIG. 11 is a left-side elevational view of the surgical support of FIG. 9, the right-side elevational view being a mirror image thereof;

FIG. 12 is a top plan view of the surgical support of FIG. 9;

FIG. 13 is a front perspective view of another preferred embodiment of the surgical support according to the present design;

FIG. 14 is a front elevational view of the surgical support of FIG. 13;

FIG. 15 is a left-side elevational view of the surgical support of FIG. 13, the right-side elevational view being a mirror image thereof; and,

FIG. 16 is a top plan view of the surgical support of FIG. 13.
