(57) **CLAIM**

The ornamental design of a rotatable article engaging assembly, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the rotatable article engaging assembly of the present invention; FIG. 2 is a perspective view thereof; FIG. 3 is a top plan view thereof; FIG. 4 is a front elevational view, the rear being a mirror image thereof; and, FIG. 5 is a right side elevational view, the left side being a mirror image thereof. The broken lines in FIGS. 1 through 5 are for illustrative purposes only and form no part of the claimed design.
