(57) **CLAIM**

The ornamental design for a door lock set installation jig, substantially as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a door lock set installation jig in accordance with the present invention;

FIG. 2 is a top elevation view of the door lock set installation jig of FIG. 1;

FIG. 3 is a rear elevation view of the door lock set installation jig of FIG. 1;

FIG. 4 is a side elevation view of the door lock set installation jig of FIG. 1;

FIG. 5 is a side elevation view of the door lock set installation jig of FIG. 1;

FIG. 6 is a bottom elevation view of the door lock set installation jig of FIG. 1;

FIG. 7 is a front elevation view of the door lock set installation jig of FIG. 1; and,

FIG. 8 is a front perspective view of the door lock set installation jig of FIG. 1.

The broken line showing of environmental structure and/or unclaimed portions of the design within the figure views is for illustrative purposes only and forms no part of the claimed design. It is understood that some of the unclaimed environmental structure has been removed in the FIG. 8 view for ease of illustration.
