(57) **CLAIM**

The ornamental design for a stroke counter for a golf glove, as shown and described.

**DESCRIPTION**

A golf glove for use when playing golf with the addition of decorative and colorful beads strung on elasticized cords which are affixed to the back of the glove at the seams enabling the golfer to keep track of her score. The beads can be highly decorative and colorful for women, as well as functional. They will add style to an otherwise plain glove or can be toned down with beads of a neutral color, matching the glove, so as to be less obvious for men.

The characteristic feature of the design resides in elasticized cords interstrung through beads used for counting strokes in a game of golf.

The FIGURE is a back view of a stroke counter for a golf glove.

The broken line drawing of portions of the glove in FIG. 1 is for illustrative purposes only and forms no part of the claimed design.
