(57) **CLAIM**

The ornamental design for a container with ledge, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a container with ledge according to the present invention, including a closure attached thereto;

FIG. 2 is a right side view of a container with ledge according to the present invention, including a closure attached thereto;

FIG. 3 is left side view of a container with ledge according to the present invention, including a closure attached thereto;

FIG. 4 is front view of a container with ledge according to the present invention, including a closure attached thereto;

FIG. 5 is back view of a container ledge according to the present invention, including a closure attached thereto;

FIG. 6 is a top view of a container with ledge according to the present invention, including a closure attached thereto;

FIG. 7 is a bottom view of a container with ledge according to the present invention, including a top closure as seen from the bottom;

FIG. 8 is a perspective view of a container with ledge according to the present invention, without a closure;

FIG. 9 is a right side view of a container with ledge according to the present invention, without a closure;

FIG. 10 is a left side view of a container with ledge according to the present invention, without a closure;

FIG. 11 is a front view of a container with ledge according to the present invention, without a closure;

FIG. 12 is a back view of a container with ledge according to the present invention, without a closure;

FIG. 13 is a top view of a container with ledge according to the present invention, without a closure;

FIG. 14 is a bottom view of a container with ledge according to the present invention, as shown without a top closure; and,

FIG. 15 is a front view of two containers according to the present invention, wherein a first container is nested within second container.

FIGS. 8-15 show the container without a lid for ease of illustration. The broken line showing of a stacked container in FIG. 15 is for illustrative purposes only and forms no part of the claimed design.
