(57) **CLAIM**

We claim the ornamental design for a compact spotting scope, as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of a compact spotting scope in accordance with a first embodiment, in which dashed lines indicate environmental features of a mounting boss and threaded hole, a lanyard mount, a side focus knob and turret, eyepiece cup ribbing, and threads adjacent the objective lens;
FIG. **2** is an objective end elevation view of the compact spotting scope of FIG. **1**;
FIG. **3** is an eyepiece end elevation view of the compact spotting scope of FIG. **1**, in which dashed lines near the eyepiece end indicate environmental features of surface indicia;
FIG. **4** is a top plan view of the compact spotting scope of FIG. **1**;
FIG. **5** is a left side elevation view of the compact spotting scope of FIG. **1**;
FIG. **6** is a bottom plan view of the compact spotting scope of FIG. **1**; and,
FIG. **7** is a right side elevation view of the compact spotting scope of FIG. **1**.
The broken lines in FIGS. **1** through **7** are for illustrative purposes only and forms no part of the claimed design.
